

Topic

Auditory implants 2026: Integrating cochlear and bone conduction implants into routine clinical practice

《Overview》

Institutional standards and new application guidelines for hearing implants.....	Naoki Oishi	526
National registry for auditory implants in Japan : Establishing a comprehensive EDC system	Takeshi Fujita	531

《Bone conduction implants》

Tips for explaining bone conduction implants to patients and troubleshooting.....	Akira Ganaha	535
Bone conduction implants : Preoperative trial and comparative listening.....	Takanori Nishiyama	545
Combined Vibrant Soundbridge® implantation with ossicular chain reconstruction	Masahiro Takahashi	549
New developments in bone conduction implants.....	Manabu Komori	554

《Cochlear implants》

Cochlear implants for postlingual deafness : Practical tips for patient care.....	Kyoko Shirai	559
Remote programming of cochlear implants.....	Kenichi Takano	563
Cochlear implants : Benefits of binaural hearing, integration with hearing aids, and indications for single-sided deafness.....	Tadao Yoshida	566
Intraoperative visualization of electrode insertion depth.....	Hiroshi Yamazaki	572
Cochlear structure and determining optimal electrode array.....	Hidekane Yoshimura	578
New developments in cochlear implantation : Intraoperative electrocochleography and electrically evoked auditory brainstem response.....	Shujiro Minami	583
Experience as a recipient of bilateral cochlear implants.....	Kumiko Yasuoka	587
