Stomach and Intestine (Tokyo)

— Japanese Journal —

edited by: The Research Society for Early Gastric Cancer

Volume 42 Number 5 2007 Extra

CONTENTS

Special Issue: Magnifying Endoscopic Observation of Gastrointestinal Tract

Introduction .................................................................................................................. Shin-ei Kudo 524

Outline

1. History of Magnifying Endoscopy .............................................................................. Hisao Tajiri 529
2. 1) NBI: (Narrow Band Imaging) Optical Enhanced Endoscopic Imaging ........................... Gono Kazuhiro 535
2. 2) Explanation of the Latest Endoscope System ........................................................... Hiroshi Fujiya 539
3. 1) Magnifying Endoscopic Findings in the Pharynx and Esophageal Squamous Epithelium — Observation of IPCL and Cellular Structure ................. Haruhiro Inoue, et al 545
3. 2) Relations between Magnifying Endoscopic Findings and Histological Structures in the Stomach ............................................................... Tetsuya Nakamura, et al 549
3. 3) Relationship of Findings between Magnifying Endoscopy and Pathology ....................... Michio Tanaka, et al 557
3. 4) (1) Correlation Between Magnifying Chromocolonoscopic Findings and Histologic Construction of Invasive Colorectal Cancer ... Shun-ichi Hayashi, et al 563
3. 4) (2) Pit Pattern and Three-Dimensional Configuration of Colorectal Neoplasms .... Satoru Tamura, et al 573
4. 1) (1) Endoscopic Diagnosis of Tissue Atypism (EA) in the Pharynx and Esophageal Squamous Epithelium — IPCL Pattern Classification and ECA Classification .............................. Haruhiro Inoue, et al 581
4. 1) (2) Evaluation of Microvascular Pattern Classification of Superficial Esophageal Lesions by Magnifying Endoscopy .................................................... Miwako Arima, et al 589
4. 2) (1) Pit Pattern Classification of Gastric Mucosa ....................................................... Nobuhiro Sakaki 597
4. 2) (2) Classification of the Microvascular Pattern of Early Gastric Cancer .......................... Yukinaga Yoshida, et al 604
4. 3) (1) Pit Pattern Classification in Colorectal Neoplasms .................................................. Hiroshi Kashida, et al 613
4. 3) (2) Magnifying Colonoscopic Classification of Ulcerative Colitis ............................... Yusuke Saijoh, et al 619
5. 1) Magnifying Endoscopy Techniques for Oropharyngeal and Hypopharyngeal Superficial Cancer ............................................................... Noriaki Hasuike, et al 625
5. 2) Important Points in Magnifying Endoscopic Diagnosis of Esophageal Diseases ......................... Miwako Arima, et al 630
5. 3) Technique of Magnifying Endoscopy for Gastric Lesion .......................................... Takashi Nakayoshi, et al 635
5. 4) Magnifying Endoscopy of the Duodenum and Small Intestine ................................. Shuji Inatsuchi, et al 639
5. 5) Know-How for Magnifying Observation: Photography, How to Focus, How to Use Different Pigments, Etc.—Mainly the Know-how for Magnifying Endoscopic Observation to Decide Appropriate Therapeutic Strategy Against Neoplastic Colorectal Lesion ........................................................... Hisashi Nakamura, et al 645

Detail

1. 1) Endoscopic Differential Diagnosis for Superficial Lesions in the Oropharynx and Hypopharynx ................................................................. Yasumasa Eoze, et al 655
1. 2) Distinguishing of Esophageal Malignant Lesions from Benign Lesions ........................................... Hideo Shimada, et al 663
1. 3) Endoscopic Estimation of Depth of Invasion in Cases with Superficial Cancer of the Esophagus ........................................................................... Kumiko Momma, et al 673

Stomach and Intestine (Tokyo) Vol. 42 No. 5 2007

522
1.4) Diagnostic Value of Magnifying Endoscopy with Narrow Band Imaging for Detection of Specialized Intestinal Metaplasia in Barrett's Mucosa/Esophagus

Ken-ichi Goda, et al...683

1.5) Magnifying Endoscopy for the Superficial Barrett's Esophageal Cancer

Tsuneo Oyama, et al...691

2.1) Magnifying Views of Gastritis — A-B Classification

Kazuyoshi Yagi, et al...697

2.2) Usefulness of Magnified Endoscopy for the Differential Diagnosis of Gastric Ulcerative Lesions

Tsuneo Oyama, et al...705

2.3) Magnified Endoscopic Findings of Elevated Early Gastric Cancers and Adenoma

Jusako Fujisaki, et al...711

2.4) Magnifying Endoscopic Examination and Differential Diagnosis of Flat or Depressed Early Gastric Cancer

Asushi Misunaga, et al...721

2.5) Histopathological Diagnosis of Gastric Tumors by Magnifying Endoscopy

Akihisa Tomori, et al...730

2.6) How to Determine the Horizontal Margin of Early Gastric Cancer by Using a Novel Magnification Endoscopic Technique

Kenshi Yao, et al...735

2.7) Usefulness of Magnification Endoscopy in the Determination of the Depth of Invasion of Gastric Cancer

Yasunasa Niwa, et al...747

3.1) Magnifying Endoscopy of the Duodenum

Shuji Inatsuchi, et al...753

3.2) Clinical Impact of Magnifying Endoscopy with Narrow Band Imaging for Ampullary Tumors

Hiro-o Imazai, et al...765

3.3) Magnifying Endoscopic Examination in the Small Intestine

Chihiro Kawanami...771

4.1) Differential Diagnosis of Non-neoplastic and Neoplastic Lesions Using Magnifying Chromoendoscopy

Takahisa Matsuda, et al...781

4.2) Histological Diagnosis of Colon Polyp by Magnifying Endoscopy

Shoichi Sato, et al...787

4.3) Magnifying Endoscopy of Hyperplastic Polyps and Serrated Adenoma

Hiroaki Ikematsu, et al...795

4.4) Magnifying Endoscopic Diagnosis for Laterally Spreading Tumor in the Colon rectum

Kohei Kuroda, et al...801

4.5) The Diagnosis of Invasion Depth for Protruded Types of Early Colorectal Cancer using Magnifying Endoscopy

Takeshi Tobaru, et al...809

4.6) Endoscopic Diagnosis of Depth of Invasion in Superficial Flat and Depressed Type Early Colorectal Cancer using Magnification Colonoscopy

Toshio Uraoka, et al...817

4.7) Using Magnifying Colonoscopy Strategy for Endoscopic Piecemeal Mucosal Resection (EPMR) According to Plan and Diagnosis of Recurrent or Recurrent Colorectal Tumor

Takeshi Terai, et al...823

4.8) Usefulness of Magnifying Colonoscopy in Diagnosis of Inflammatory Bowel Disease

Mikihiro Fujiya, et al...833

4.9) (1) Pit Pattern Diagnosis for Colitic Cancer and Dysplasia in Ulcerative Colitis Patients

Ichiro Hirata, et al...843

4.9) (2) Magnifying Colonoscopy for the Diagnosis of Dysplasia and Colitis in Patients with Ulcerative Colitis

Kiyonori Kobayashi, et al...849

4.10) (1) Colonoscopic Findings of Microvascular Architecture of Colorectal Neoplastic Lesions

Hideki Mitooka...857

4.10) (2) Magnified Observation of Microvascular Architecture Using Narrow Band Imaging for the Differential Diagnosis between Non-neoplastic and Neoplastic Colorectal Lesion

Takahiro Horimitsu, et al...863

4.10) (3) Qualitative Diagnosis of Colorectal Tumor Using Narrow Band Imaging (NBI) Magnification

Shinji Tanaka, et al...869

4.10) (4) Magnifying NBI Colonoscopic Findings in Ulcerative Colitis

Takayuki Matsumoto, et al...877

**Topics**

1. Endo-cytoscopy System for Upper Gastrointestinal Tract

Yoichirou Kumagai, et al...884

2. Enhanced-magnification Endoscopy with Acetic Acid

Kyosuke Tanaka, et al...891

3. The Subdivision of the Type V Pit Pattern — The Results of 4 years' Research in Kudo's Pit Pattern Conference

Shin-e Kudo, et al...898

**Column**
