Stomach and Intestine (Tokyo)

—Japanese Journal—

edited by: The Research Society for Early Gastric Cancer

Volume 42 Number 8 July 2007

CONTENTS

The Theme of This Month: Gastric Mucosa-Associated Lymphoid Tissue Lymphomas that Do Not Respond to Helicobacter pylori Eradication — Characteristics and Treatment Strategy

Introduction Misuo Iida 1187
Molecular Pathogenesis of Gastric MALT Lymphoma, Against Which Helicobacter pylori Eradication Therapy is Ineffective Toshiaki Morito, et al 1191
Clinical Characteristics of H. pylori Eradication Resistant Gastric MALT Lymphoma with Special Reference to Endoscopic, Endoscopic and EUS Findings Tsuneya Nakamura, et al 1198
Long-time Follow-up Study of Localized Gastric Mucosa-associated Lymphoid Tissue (MALT) Lymphoma and the Clinical Features of Antibiotic-resistant Cases of Gastric MALT Lymphoma Taiji Akamatsu, et al 1207
Clinical Findings of Gastric MALT Lymphoma Not Eligible for Helicobacter pylori, Eradication with Rituximab as Second-line Treatment Toshiyuki Kato, et al 1217
Gastric MALT Lymphomas that Do Not Respond to Helicobacter pylori Eradication — A Clinicopathological and Molecular Analysis of 100 Patients with Reference to Long-term Outcome Shotaro Nakamura, et al 1225
Treatment of Patients with Gastric Mucosa-associated Lymphoid Tissue Lymphoma Refractory to Helicobacter pylori Eradication — Chemotherapy and Rituximab Norihiko Watanabe, et al 1241
Effect of Radiotherapy on MALT Lymphomas not Responding to H. pylori Eradication Akira Tari, et al 1250
Characteristics and Treatment of Gastric MALT Lymphoma Unresponsive to Eradication Therapy — Special Reference to Multicenter Cooperative Trials Shigenori Kadowaki, et al 1261
Response of MALT Lymphoma of the Giant Rugal Type in the Stomach to Rituximab + THP-COP Combination Therapy After Failure of Bacterial Eradication Therapy, Report of a Case Noriaka Takatsu, et al 1267
Long-term Results of Anti-Helicobacter pylori Therapy in Early-stage Gastric Diffuse Large B-cell Lymphoma, Report of Three Cases Toshiyuki Kato, et al 1277

Case Reports

Case of the Month
Early Gastric Cancer (Type 0 IIc + IIb, Very Well Differentiated Adenocarcinoma with Gastric Phenotype) with Obsolete Margin, Report of a Case Mamoru Nakamura, et al 1182
