

Stomach and Intestine (Tokyo)

— Japanese Journal —

edited by : The Research Society for Early Gastric Cancer

Volume 43 Number 1 January 2008

CONTENTS

The Theme of This Month : Endoscopic Submucosal Dissection for Early Gastric Cancer — Seeking for Its Expanded Indications

- Introduction Tsuneyoshi Yao9
- Establishment of Pathological Indications and Criteria for
Further Resection After Endoscopic Resection of Submu-
cosally Invasive Gastric Cancer Yutaro Egashira, et al11
- Re-evaluation for Risk Factors of Lymph Node Metastasis
in Gastric Carcinoma with Submucosal Invasion Takashi Yao, et al23
- Incompletely Resected Cases Under the Extended Indica-
tion of Endoscopic Submucosal Dissection for Early Gas-
tric Cancer Toshiyuki Mishima, et al33
- Incomplete Resection of ESD in Patients with Early Gastric
Cancer Meets Expanded Criteria Koichi Tatsumi, et al44
- Characteristics of Incomplete ESD for Early Gastric Cancer Shiro Oka, et al51
- Current Status of Endoscopic Submucosal Dissection (ESD)
in Early Stomach Cancer — The Results of Excising the
Lesions Eligible Under the Extended Indications and an
Analysis of the Factors Leading to Non-*en bloc* Complete
Resection Takashi Nagahama, et al61
- Long-term Outcome of ESD for Early Gastric Cancer Chika Kusano, et al74
- Long Term Survival of "Extended Indication" Cases of Ear-
ly Gastric Cancer Treated with ESD Akiko Takahashi, et al81
- (*Conversazione*)
- Endoscopic Submucosal Dissection for Early Gastric Cancer
— Seeking for Its Expanded Indications Akimichi Chonan, et al91

Case Reports

- Papillary Adenocarcinoma of the Stomach with Marked
Lymphangiosis Carcinomatosa, Presenting and Uncom-
mon Aggregation of White and Red Speckles on the Mu-
cosa around the Tumor, Report of a Case Daisuke Yoshimura, et al111

Case of the Month

- Successful Radiotherapy for the Mucosa-associated Lym-
phoid Tissue of the Stomach with *Helicobacter pylori*
negative, Report of a Case Kayoko Koshikawa, et al4
