

I to Cho (*Stomach and Intestine*)

— *Japanese Journal* —

edited by : The Research Society for Early Gastric Cancer

Volume 15 Number 2 February 1980

CONTENTS

The Theme of This Month : Intermediate Zone and Gastric Lesions

- Intermediate Zone and Gastric Lesions.....*T. Mochizuki*.....123
- A Boundary Line Limited to the Fundic Gland Mucosa
with Intestinal Metaplasia—Its shifting with increasing
age and clinicopathological significances*K. Nakamura et al*.....125
- Intermediate Zone and Gastric Ulcer
—A study on autopsy cases of the aged.....*Y. Esaki et al*.....137
- Radiologic Diagnosis of Cancer in Fundic Gland Area*N. Sugiyama et al*.....145
- Glandular Border and Gastric Lesion
—Regarding how to recognize the glandular border and
factors affecting its localization*Y. Akasaka et al*.....155
- Fundic-Pyloric Border and Gastric Diseases
—Gastrosopic studies with endoscopic proximal atrophic border*S. Suzuki et al*.....167
- Gastric Lesions in Relation to Acid-secreting Area*S. Okuda et al*.....177
- Gastric Mucosal Lesion and Gastrin
Secretion in Pernicious Anemia.....*S. Fukuchi et al*.....187
- Magnified Observation of Glandular Border,
Especially Transitional Zone*Y. Iida et al*.....201

Panel Discussion

- Intermediate Zone and Gastric Lesions*T. Takemoto et al*.....208

Research

- Growing Process to Carcinoma of Linitis Plastica
Type of the Stomach from Cancer-development.....*K. Nakamura et al*.....225
