

Stomach and Intestine

— Japanese Journal —

edited by : The Research Society for Early Gastric Cancer

Volume 13 Number 5 May 1978

CONTENTS

The Theme of This Month : Magnifying Observation and Pathophysiology of the Gastrointestinal Mucosa

- Magnifying Endoscopic Observation and Pathophysiology
of the Gastric MucosaK. Okazaki et al.....605
- Examination of the Magnified Mucosal Surface and
Pathophysiological Changes of the Human Small Intestine.....H. Hiratsuka et al.....615
- Magnified Observation of Minute Changes of Polypoid
Lesions in the Large IntestineM. Tada et al.....625
- Observations of the Mucous Membrane of the Colon by
an Improved Magnifying Fiber-colonoscope
—With special reference to the remission features of ulcerative colitis...M. Nishizawa et al.....637

Panel Discussion

- What Can Be Found by Magnifying Observation of the
Gastrointestinal Mucosa ?T. Takemoto et al.....644

Researches

- Observations on the Magnified Gastric Mucosa
—With special reference to angiographic features of cancer lesion—M. Ohishi et al.....657
- Magnification Radiography of the Colonic Mucosa.....Y. Shimoda et al.....663

Case Reports

- IIc Type Gastric Cancer Which Shows Marked Lymphoid Hyperplasia
in Submucosa Corresponding with *sm* Invasion, a Case Report.....H. Sato et al.....675
- A Case of Widespread IIc+IIa Type Early Gastric CancerH. Hidano et al.....681
- Protein-losing Gastro-pathy with Spontaneous Remission
of Giant Fold—Report of a caseK. Nonami et al.....687
- Diffuse Papillomatous Cholesterosis in Gallbladder
with Metaplastic Epithelium, a Case ReportY. Hatae et al.....695
- Papillary Adenoma of the Duodenum Accompanied
by Early Gastric Cancer, a Case ReportY. Antoku et al.....701
