

I to Cho (Stomach and Intestine)

— Japanese Journal —

edited by : The Research Society for Early Gastric Cancer

Volume 18 Number 6 June 1983

CONTENTS

The Theme of This Month : Early Gastric Cancer Hard to Differentiate from Benign Lesions

- Elevated Type of Early Gastric Cancer with Endoscopically
Less Malignant Appearance
—Recent Advance of Endoscopic Diagnosis.....*H. Yamaguchi, et al*... 571
- Radiological Diagnosis in Depressed Type Early Gastric Cancer
with Difficulty in Differential Diagnosis from Benign Lesions*J. Yoshino, et al*... 577
- Diagnosis of Depressed Type of Early Gastric Cancer Hard to
Differentiate from Benign Lesions
—From the Standpoint of Endoscopic Diagnosis*K. Hayakawa, et al*... 585
- The Difference between IIb Lesion and Neighboring Noncancerous
Mucosa from the Radiological Standpoint*S. Tsukasa, et al*... 591
- Endoscopic Findings of IIb Type Early Gastric Cancer and
Minute Cancer.....*M. Kawaguchi, et al*... 603
- (Conversazione)**
- Early Gastric Cancer Hard to Differentiate from
Benign Lesions.....*S. Nakazawa, S. Fukuchi, et al*... 610

Case Report

- Familial Polyposis Coli Associated with Gallbladder Polyps,
Report of a Case.....*S. Akamatsu, et al*... 627

Researches

- Atypical Architecture of Gastric Adenocarcinoma:
Three-Dimensional Morphology as a Basis for Diagnosis*T. Takahashi, et al*... 633
- The Relation between the Histological Types of Gastric
Carcinoma and the Mode of Spreading
—The Pathological Study in Autopsy Cases Using a New
Proposed Histological Classification of Gastric Carcinoma.....*N. Goseki*... 643
- Radiographic and Endoscopic Findings in Penicillin-associated
Non-pseudomembranous Colitis.....*M. Iida, et al*... 653
- Histopathological Study on IIb Lesions of the Gastric Carcinoma
with Reference to the Mechanism of Their Development*H. Ikezono, et al*... 663

Case of the Month

- Early Gastric Cancer, Type IIc*Y. Sugino, et al*... 567
