

Stomach and Intestine

— Japanese Journal —

edited by: The Research Society for Early Gastric Cancer

Volume 4

March 1969

Number 3

CONTENTS

Special Articles: Diagnosis of the Depth of Cancerous Invasion in the Gastric Wall and Observation of its Further Course

- Endoscopic diagnosis of depressed type early gastric cancer by means
of an index method: RC method *Takeshi Miwa et al.*.....289
- Current issues of gastric cancer
—its further course and the depth of its invasion—..... *Kunio Takagi et al.*.....301
- Depth involvement and mode of development
of early gastric cancer studied by endoscopic method *Shigeru Okuda et al.*.....313
- Diagnosis of the depth of cancerous invasion in the gastric wall:
from the standpoint of quantification of endoscopic diagnosis
..... *Kazutaka Hirokado et al.*.....327

Case Reports

- A case of early gastric carcinoma in the antrum *Hiroshi Matsunashi et al.*.....341
- A case of early carcinoma of the sigmoid colon..... *Masakazu Maruyama et al.*.....349
- A case of duodenal stricture due to tuberculosis..... *Kazuya Shibasaki et al.*.....357
- A case of granular cell myoblastoma coexistent with neurinoma
..... *Takanori Tomura et al.*.....363

Research

- Benign tumors of the duodenum *Takuji Nakamura et al.*.....375

Symposium

- Diagnosis of the depth of cancerous invasion in the gastric wall and
observation of its further course *Takao Sakita and Hikoo Shirakabe et al.*.....385
