

Stomach and Intestine

— Japanese Journal —

edited by : The Research Society for Early Gastric Cancer

Volume 10 Number 2 February 1975

CONTENTS

The Theme of This Month : The Gastric Mucosa as a Background of Ulcer and Polypoid Lesion

- Scar Zone of Gastric Ulcer and its Clinical SignificanceT. Gonoï et al...153
- Gastrosopic Studies of the Mucosa in Gastric Ulcers.....T. Saito et al...163
- Of the Mucosal Appearance Surrounding Polypoid Lesion of the Stomach
—from the view points of x-ray diagnosis.....K. Oda et al...171
- Gastric Mucosal Change and Secretory Function as a Background
of Elevated Lesion of the StomachS. Fukuchi et al...179
- On the Mucosal Changes in the Stomach with Polyp
—from the histopathological standpointY. Ichinose et al...185
- Gastric Mucosa in Duodenal Ulcer Considered from the Radiologic
Findings and Gastric Secretion
—Relationship between form and functionS. Fuyuno et al...191
- The Gastric Mucosa as a Background of Duodenal Ulcer
—from the standpoint of endoscopy.....Y. Hiki et al...201

Researches

- A Study on Radiological Diagnosis for the Esophageal Infiltration
of the Cardio-Esophageal CarcinomaS. Inuo et al...209
- Endoscopic Observation of Acute Lesions of the StomachT. Shirahama et al...219
- Surgical Consideration of Gastric Diseases Showing Giant Folds
—Especially with reference to giant hypertrophic gastritis.....Y. Koike et al...229

Case Reports

- Extensive IIb Type Early Cancer of the Stomach Endoscopically
Diagnosed, a Case ReportS. Kato et al...239
- A Primary Carcinoma of the Duodenum Associated with
Early Gastric Cancer and Gastric Polyposis, a Case Report.....M. Takami et al...245
- Gastric Carcinoma of Superficial Spreading Type
with Partial AdenoacanthomaN. Kuwabara et al...253
