

Stomach and Intestine

— Japanese Journal —

edited by : The Research Society for Early Gastric Cancer

Volume 12 Number 8 August 1977

CONTENTS

The Theme of This Month : Intramucosal Extension and Depth of Infiltration of the Gastric Carcinoma

- The Diagnosis of Infiltration of Gastric Cancer
by Means of Magnified Roentgenograms.....*H. Kiyonari et al.*.....1009
- The Estimation of Invasion Depth and Extent of the Gastric Carcinoma
by the Use of the Roentgenogram of Resected Specimens
—Special reference to invasion depth.....*S. Tsukasa et al.*..... 1017
- Significance of Endoscopic Carbon Ink Injection Method
in Recognition of Boundary of Gastric Carcinoma, with Special
Reference to Defining Proximal Boundary*T. Takekoshi et al.*.....1031
- Diagnosis of the Extent of Infiltration in Gastric Carcinoma
Employing the Dye Endoscopy*K. Ida et al.*.....1043
- Determination of the Extent of Infiltration
in Gastric Cancer by Endoscopic Clipping Method*S. Fuyuno et al.*.....1055

Researches

- A Clinicopathological Study on Infiltrating Pattern of
Gastric Cancer in Relation to its Site of Origin*N. Sugiyama et al.*.....1073
- A Comparative Study between Radiologic and Macroscopic Findings
of Early Gastric Carcinoma with II b-like Intramucosal Spread
—With special reference to radiologic definition of proximal boundary.....*Y. Baba et al.*.....1087
- Relationship between Multiple Ulcers and
Linear Ulcer of the Stomach*T. Oohara et al.*.....1105
