

Stomach and Intestine (Tokyo)

— Japanese Journal —

edited by : The Research Society for Early Gastric Cancer

Volume 49 Number 1 January 2014

CONTENTS

The Theme of This Month : Diagnosis of the Invasion Depth of Early Gastric Cancer Befitting to the Era of ESD

Introduction Akimichi Chonan5

Pathological Diagnosis of Depth of Invasion of Early Gastric

Adenocarcinomas with Special Reference to Their Gross Features Shinichi Ban, et al8

The Role of Radiological Diagnosis of the Depth of Invasion in

Early Gastric Cancer in the ESD Age Shunji Shimaoka, et al22

Diagnosis of the Depth of Early Gastric Cancer by Conventional

and Dying Endoscopy — from the View Point of the Size and

Macroscopic Type Yasuhiko Maruyama, et al35

Depth Diagnosis for Early Gastric Cancer by Conventional and

Chromo-Endoscopy Seiichiro Abe, et al47

Thin Probe Endoscopic Ultrasonography for Pretherapeutic

Depth Staging for Early Gastric Cancer Hideo Yanai, et al55

Diagnosis of the Depth of Cancer Invasion for Early Gastric Cancer Shun Sato, et al65

Depth Diagnosis of Early Gastric Carcinoma Using Magnified Endoscopy Junko Fujisaki, et al77

Magnifying Endoscopic Diagnosis of Depth in Early Gastric Cancer Kazuyoshi Yagi, et al86

Minimally Invasive Submucosal Early Gastric Cancer that

was Over-Diagnosed by Magnifying Narrow Band Imaging

Endoscopy, Report of a Case Takeshi Yamashina, et al96

Low-grade Differentiated-Type Gastric Adenocarcinoma

Invading to the Deep Submucosal Layer with Poorly

Differentiated Adenocarcinoma, Report of a Case Yoji Sanomura, et al101

Case Report

Early Gastric Cancer (M), Showing SMT Like Appearance,

Report of a Case Hayato Hirashima, et al110
