

# Stomach and Intestine (Tokyo)

Japanese Journal

edited by Editorial board of the *Stomach and Intestine (Tokyo)*  
associated with The Research Society for Early Gastric Cancer

Volume 56 Number 8 July 2021

## CONTENTS

The Theme of This Month :

### Future Perspective of Endoscopic Treatment Indication for Early Colorectal Cancer

|                                                                                                                                                                                                   |                          |      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|------|
| Introduction                                                                                                                                                                                      | Shinji Tanaka            | 1009 |
