CONTENTS

Foreword ................................................................. Junya Aho 617

Special Issue: Impacts of Guidelines for The Treatment of Hypertension 2014 (JSH2014) ................................. 619

ImpactsofGuidelinesforTheTreatmentofHypertension(JSH2014) Kazuaki Shimamoto 619

ImpactsofGuidelinesforTheTreatmentofHypertension(JSH2014) Satoshi Hoshide, Kazuomi Kario 620

Risk Stratification and Target Blood Pressure Levels of Hypertension Treatment .............................................. Naoyuki Hasebe 627

The First-line Antihypertensive Drugs and The Use of Fixed-combination Drugs ........................................ Kazuyuki Shimada 633

Hypertension with CKD ................................................ Sadao Ito 639

Antihypertensive Therapy in Patients with Diabetes Mellitus .......................... Kazuhiro Miyashita, et al. 645

Treatment of Hypertension Associated with Stroke ................................. Norio Tamahashi 656

Risk Stratification and Target Blood Pressure Levels of Hypertension Treatment .............................................. Naoyuki Hasebe 627

The First-line Antihypertensive Drugs and The Use of Fixed-combination Drugs ........................................ Kazuyuki Shimada 633

Hypertension with CKD ................................................ Sadao Ito 639

Antihypertensive Therapy in Patients with Diabetes Mellitus .......................... Kazuhiro Miyashita, et al. 645

Treatment of Hypertension Associated with Stroke ................................. Norio Tamahashi 656

Treatment Strategy for Hypertensive Patients with Heart Disease .......................... Hisashi Kai 662

The Treatment of Hypertension in The Elderly ................................. Koichi Yamamoto, Hiroshi Ohkubo 670

Treatment of Hypertension in Pregnancy ........................................ Hiromichi Satozaki 675

Imaging Findings of Respiratory Dysfunction ................................. Noriyuki Tanaka, et al. 683

Imaging Diagnosis of Chronic Interstitial Pneumonia ................................. Noriyuki Tanaka, et al. 683

Review

Lung Development and Airway Epithelial Differentiation via Notch Signaling ................................. Mitsuru Mori 689

Bedside Teaching

The 6-min Walk Test ........................................................... Kenji Miyamoto 697

Current Opinion

The Standard and Current Treatment of PAD, from a Surgical Point of View ................................. Takeshi Baba, et al. 704

Recommendation of Studying Abroad to Respiratory Physician

The Story of Studying Abroad Alone in The US ................................. Shigeki Nakamura 713

Case Reports

A Case of Pyopneumothorax Treated Successfully with Continuous Suction Drainage Effected Like Vacuum-assisted Closure ................................. Junzo Iemura, et al. 717
