

KEY WORDS INDEX (From vol. 51 no. 1 to vol. 51 no. 12, 1999)

[A]

α -synuclein481, 1087
 abducens nerve palsy247
 acquired pendular nystagmus1055
 action myoclonus999
 activated partial thromboplastin time325
 acute disseminated encephalomyelitis799
 acute sensory neuropathy1041
 activities of daily living (ADL)201
 aging of the brain221, 557, 565, 573, 583
 a., morphological aspect of573
 abnormal a.557
 normal a.557
 Alzheimer's disease116, 541, 573, 583, 947
 amantadine851
 amplitude699
 arthrodromic a.699
 antidromic a.699
 amyloid β -protein116
 amyotrophic lateral sclerosis (ALS)41
 a., anterolateral myelin pallor in spinal cord of771
 a., initial clinico-pathological lesions in771
 a., non-motor system in771
 a., respiratory motor paralysis preceded type of771
 aneurysm253, 1015
 anisotropy of apparent diffusion coefficient (ADC)
 145
 anti-GM₁ antibody455
 aortic aneurysm, dissecting1051
 apolipoprotein E116
 area measurement953
 argyrophilic grain433
 arteriosclerosis444
 aseptic meningoencephalitis349
 astrocyte871
 atheroma plaque957
 athetosis887
 atrial fibrillation83
 atrophy, pathological573
 atrophy, physiological573
 auditory brainstem implant (ABI)103
 autonomic function test263
 autosomal recessive juvenile parkinsonism (AR-JP)
 487
 a. sporadic case1061
 axonal degeneration313
 axonopathy1041

[B]

β -amyloid583
 BAC library487
 ballooned neuron433
 basal ganglia887, 907
 basilar artery occlusion419

beriberi638
 Bickerstaff1045
 botulinum toxin427
 brain923, 1015
 b. atrophy557, 621
 b. check-up933
 b. death161
 b. tumor, metastatic404
 brainstem encephalitis1045
 breach674

[C]

Ca²⁺ influx49
 CACNL 1 A 4167
 computer-aided design (CAD)953
 CAG repeats167
 calcification957
 capillary telangiectasis729
 cardiac sympathetic nerve263
 carotid artery957
 carotid cavernous fistula1065
 carotid compression study253
 cell proliferation1033
 cerebellar ataxia717
 cerebral
 c. angitis529
 c. arteriovenous malformation331
 c. blood flow565
 c. embolism83, 621
 c. hemisphere149
 c. infarction901
 c. ischemia502, 871
 c. white matter lesions69
 cerebrovascular disorders201
 Charcot-Marie-Tooth neuropathy411
 Chiari malformation318
 cholesterol116
 choroid plexus981
 chronic hypertrophic pachymeningitis825
 chronic inflammatory demyelinating poly (radiculo)-
 neuropathy (CIDP)127, 411, 415, 1075
 Churg-Strauss syndrome891
 ciliospinal reflex161
 circadian rhythms841
 circulation841
 clipping339
 clonazepam1055
 clumsiness439
 cochlear implant (CI)103
 coma83
 community survey209
 complex partial seizure749
 compound muscle action potential (CMAP)863
 compound nerve action potential (CNAP)863

conduction block	411, 455	epilepsy	259, 683, 938, 999
continuous epidural saline infusion	711	e., myoclonic	717
corpus callosotomy	749	e., occipital lobe	791
cortical dysplasia	683	e., temporal lobe	729
corticobasal degeneration	59	e. surgery	749
cortico-cortical inhibition	439	epileptic psychosis	791
corticosteroid therapy	69	episodic memory	985
cranial base surgery	602	exotropia	525
craniostomosis	953	[F]	
Creutzfeldt-Jakob disease	887, 969	familial Parkinson's disease	1087
<i>cryptococcus</i>	69	fetus	215, 674
<i>c. neoformans</i>	277	fingerprint profiles	999
CSF leakage	345	first motor system (Holstege)	771
cyclic AMP	49	fist-edge-palm test	137
[D]		fluent aphasia	901
D-bifunctional protein deficiency	295	fluid-attenuated inversion recovery (FLAIR)	933
decubitus	815	f., MRI	633
delection	1061	fluorescent granular perithelial (FGP) cell	871
dementia	185, 541, 815, 963	frontal lobe	137
d., frontotemporal	59, 641, 691	f. degeneration type	641
d., senile	557	frontotemporal dementia	59, 641, 691
d., subacute progressive	969	f. linked to chromosome 17	761
d. with glial tangles	691	Fukuyama-type congenital muscular dystrophy	674
d. with Lewy bodies (DLB)	481, 691	fungal meningoencephalitis	69
d. with neurofibrillary tangles	691	[G]	
demyelinating neuropathy	415	gallium scintigraphy	815
diabetes mellitus	415	gamma knife	895
diabetic neuropathy	863	gamma-immunoglobulin therapy	455
diagnostic criteria	415	gene	259
diasthesis	502	g. analysis	167
diffuse axonal injury	703, 1071	generator source	331
Diffuse Lewy body disease (DLBD)	541	genetic heterogeneity	659
diffusion-weighted imaging (DWI)	515	genotype/phenotype correlation	17
d., isotropic	145	glia limitans	674
d., reversibility of	575	glial inclusion	433
dilated cardiomyopathy	621	globoid cell leukodystrophy	185
dipole tracing	331	glutamate	583
disability	201	g. receptor	683
dopamine	907	growth rate	149
dorsal root ganglion	1041	growth-associated proteins	683
dose finding study	427	Guillain-Barré syndrome	241
doublecortin	667	G., recurrence of	241
D-penicillamine	785	[H]	
drawing deficit	171	head injury	615, 703, 1071
drug therapy	1055	head trauma	55
dural arteriovenous fistula	1065	healthy elderly residents	209
dural tail sign	353	hearing loss	103
dynamic apraxia	137	heart failure	339
dynamic computed tomography (dynamic CT)	419	helical CT	1015
[E]		hemifacial spasm	427
EEG	723	hemiplegia	83, 201
Eker rat	11	hemodialysis	325
electrocorticography	729	hemosiderin	703
electromyography	427	hereditary motor and sensory neuropathy (HMSN)	
electronmicrography	520		411, 1075
electrophysiological findings	411	h. with spastic paraplegia	975
encephalomyeloneuritis	723	h. type V	975
encephalopathy	851	herpes zoster ophthalmicus and delayed contralateral hemiparesis	529
endoarterectomy	957		

high-dose intravenous methylprednisolone	799	memory	565
hippocampal atrophy	947	meningioma	1033
holoprosencephaly	659	m., recurrence	1033
homolateral imitative synkinesia	638	meningoencephalitis	277
HTLV-I	723	merlin	17
hydrocephalus	215, 602, 627	metabolism	923
hyper-reductive stress	589	metachromatic leukodystrophy	185
hypertension	221	methicillin-resistant <i>Staphylococcus aureus</i> (MRSA)	815
hypertensive intracerebral hemorrhage	444	MIB-1	1033
hyponatremia	277	microneurosurgery	602
[I]		microtubule-associated proteins	683
¹²³ I-metaiodobenzylguanidine cardiac scintigraphy	263	microvessels	871
ibudilast	49	middle cerebral artery	779
IC-PC aneurysm	805	miniature Ommaya's reservoir	627
ictal SPECT	791	minimal invasive surgery	602
idiopathic dystonia	391	Mini-Mental State Examination	209
impairment of autobiographical memory	55	misery perfusion	502
incremental response	867	mitochondrial genotype associated with longevity	589
infant	1023	mosaicism	259
infectious disease	969	motor and sensory nerve conduction studies	1029
influenza	851	motor evoked potential (MEP)	155
infundibular dilatation	253	motor neuron disease (MND)	455, 963
insomnia	841	m. with dementia	963
intelligence	565	MR angiography (MRA)	221
interelectrode distance	699	MR spectroscopy (MRS)	923
inter-examiner reliability	1029	multiple subpial transection (MST)	749
interleukin-6	349	multifocal motor neuropathy (MMN)	127, 455
internal carotid artery occlusion	444	multiple cranial nerve palsies	825
internuclear ophthalmoplegia	525	multiple sclerosis	235
intrafascicular microneurography	313	multiple system atrophy	263, 305, 433
intrathoracic meningocele	881	muscle afferent block (MAB)	391
intravenous immunoglobulin therapy	127	muscular dystrophy	621
intraventricular hemorrhage	627	<i>Mycoplasma pneumoniae</i> infection	799
inv dup(15)	259	myocarditis	241
ischemic penumbra	502	myoclonus	1045
isoniazid	717	[N]	
[J]		NADH crisis	589
juvenile pilocytic astrocytoma	149	neonate	215
[K]		neovascularization	404
Kufs' disease	999	neovasculature	404
kyphoscoliosis	881	nerve biopsy	975
[L]		nerve conduction	313
lactate	923	n. measurement	1029
language	565	n. studies	313
L-dopa	1071	n. velocity	863
leukodystrophy	185	neural tube defects	659
Lewy body	481	neuroaxis endodermal cyst	520
LIS 1	667	neurocristopathy	5
lissencephaly	667	neurodegenerative disease	969
local intraarterial fibrinolysis	779	neuroendoscopy	602
long-term outcome	318	neurofibromatosis	5, 881
Luria	137	neurofibromin	17
luxury perfusion	502	neuronal ceroid-lipofuscinosis	999
lymphocytopheresis	235	neuronal migration disorder	667
lymphocyte subsets	235	neuro-otological tests	155
[M]		neuropathy, cisplatin	313
medial medullary infarction	145	neuropathy, vincristin	313
melatonin	841	neurovirulence	851

neurulation	659	pure agraphia	171
neurofibromatosis (NF)	17	[R]	
NF 1	17	rabbit syndrome	907
NF 2	17	rat cerebral cortex	871
non-Alzheimer degenerative dementias	691	repetition	901
[O]		repetitive nerve stimulation test	867
oligodendroglia	49	respiratory failure	881
olivopontocerebellar atrophy	305	retrograde amnesia	55
onion bulb	1075	RI cisternography	345, 711
orbitofrontal gyrus	749	ring finger domain	487
oromandibular tremor	907	[S]	
orthostatic headache	345	sarcoidosis	349
oxygen-glucose deprivation	49	SCA 6	167
[P]		S., sporadic	167
platelet-activating factor (PAF) acetylhydrolase	667	schizencephaly	938
pallido-ponto-nigral degeneration	761	seizure	633
parahippocampus	963	semantic memory	985
<i>parkin</i> gene	487, 493, 1061, 1087	sensorimotor cortex	331
parkin protein	493	sensory nerve action potential	699, 1041
parkinsonism	59, 1071	sensory nerve conduction studies	699
p., autosomal recessive early-onset	473, 493	sensory polyradiculoneuritis	723
p., familial	473	sequence learning	137
p., hereditary	473	Short-Memory Questionnaire	209
p., juvenile	1061	Sjögren's syndrome, primary	349
Parkinson's disease	481, 493, 541, 1087	skull tumor, metastatic	353
P., autosomal dominant	473	sleep	841
P., familial	481, 493	s. disorders	841
PBM IL-2 production	235	slow inactivator of isoniazid	717
peduncular hallucination	65	social adaptation	985
pericallosal lipoma	981	somatosensory evoked potential (SEP)	331
perinuclear antineutrophil cytoplasmic antibody	825	somatosensory spinal evoked potential (SSEP)	41
periodic synchronous discharge	969	sonic hedgehog gene	659
peroxins	295	SPECT	887
peroxisomal disorders	295	S., ^{99m} Tc-ECD	785
peroxisome biogenesis disorders	295	spinal cord conduction velocity	41
persistent vegetative state (PVS)	1071	spinal lipoma	229, 1023
phacomatosis	5, 11	spontaneous intracranial hypotension (SIH)	345, 711
phonological discrimination	901	striatonigral degeneration	305
phonological identification	901	stroke	621
Pick's disease	541, 641	s. impairment	201
pituitary adenoma	895	Sturge-Weber syndrome	633
plasma exchange	1041	subarachnoid hemorrhage	65, 809
pleural effusion	881	subarachnoid adhesion	247
pneumocephalus	615	subdural empyema	815
polymicrogyria	674	subdural hematoma, chronic	325, 345
polymyalgia rheumatica	1051	superacute stroke	515
polyneuropathy	638	superficial siderosis (SS)	155
p. index (PNI)	863	sural nerve biopsy	723
pontine hemorrhage	1055	surgery, hydrocephalus	215
posterior communicating artery	253	syringomyelia	318
post-infectious	525	[T]	
postural fixation	867	T 2* weighted image	703
postural headache	711	tau	59, 583
posture	867	tauopathy	433, 761
prednisolone · cyclophosphamide combined therapy	825	temporal arteritis	1051
premature infants	627	temporal lobectomy	749
progressive limb kinetic apraxia	439	thalamic hemorrhage	891
prothrombin time	325	therapeutic time window	779

three-dimensional CT angiography(3 D-CTA)	805, 1015	urodynamics	229
three-dimensional magnetic resonance angiography (3 D-MRA)	805	[V]	
tissue plasminogen activator	779	vaccine	851
topoisomerase II α	1033	vascular disease	1015
transvenous embolization	1065	vascular endothelial growth factor(VEGF)	404
trapped fourth ventricle	247	vasculitis	891
traumatic brain injury	985	vasospasm	65, 809
tremor	907	vein of Galen	339
tuberous sclerosis complex(TSC) 1 gene	11	vesicoureteral reflux	229
TSC 2 gene	11	vibration sense	41
thyroid-stimulating hormone(TSH)	895	vigilance	565
tuberous sclerosis	5, 11	visual hallucination	791
tumor suppressor gene	33	visual image	171
two-stage operation	895	vitamin B ₁ deficiency	638
[U]		vitamin B ₆	717
ubiquitin	487	von Hippel-Lindau disease	33
ulceration	957	[W]	
ultrasonogram of carotid artery	957	warfarin	325
unruptured aneurysm	895	WEBINO Syndrome	525
untethering, conus	229, 1023	Wegener's granulomatosis	825
		Wilson's disease	785
