

KEY WORDS INDEX (From vol. 52 no. 1 to vol. 52 no. 12, 2000)

¹²³ I-IMP SPECT	991	[B]	
22 q	973	β amyloid	222
5-hydroxytryptamine	287	bacteria	495
[A]		basal ganglia	231
α -ketoglutarate dehydrogenase	193	Bickerstaff's brainstem encephalitis	715
acetylcholine	59	bilateral carotid artery occlusion	79
acute cerebral infarction	789	bilateral neurosensory hearing impairment	249
acute ischemic stroke	243	Binswanger's disease	661
acute pancreatitis	43	bitemporal epilepsy	1025
acute stroke	857	blastic crisis	1097
adult T cell leukemia	1003	blepharospasm	629
affective disorder	135	blinking	529
aging	222	blood pressure	984
aluminum	222	blood-steal phenomenon	445
Alzheimer's disease	193, 211, 884	bone tumor	1103
A., risk factor	222	bow hunter's stroke	431
amnesia, anterograde	979	brain atrophy	79
amnesia, retrograde	979	brain attack	373
amyloid β protein	884	brain death	719
amyloidosis	14	brain natriuretic peptide	1019
aneurysm	559	brain stem	1109
angioarchitecture	565	b. auditory evoked potential	249
angioplasty	341, 488, 571	b. infarction	249
angitis	541	brain temperature	719
anosodiaphoria	1109	brain tumors	599
anosognosia	1109	Brown-Séquard syndrome	801
anterior callosotomy	1085	[C]	
anti GM 1 ganglioside antibody	715	calcification	541
anti GQ 1 b ganglioside antibody	715	Calgary Depression Scale for Schizophrenics : a Japanese version, The	163
anti GT 1 a ganglioside antibody	715	caloric stimulation	49
antibody	495	carotid arteries	307
anticardiolipin antibody	64, 1007	carotid-cavernous fistula (CCF)	419
antidromic sensory nerve conduction studies	909	carpal tunnel syndrome	25, 404
antihypertensive agents	984	cartilage differentiation	734
anti-neuronal antibody	1057	cavernous sinus	173
antinuclear antibody	407	central nervous system (CNS)	609, 701, 781
antioxidant	473	cerebellar neuroblastoma	391
antiphospholipid antibody syndrome	1007	cerebellitis	37
antiphospholipid syndrome	64	cerebello-pontine angle tumor	691
aortic aneurysm	259	cerebral	
aortic dissection	259	c. amyloid angiopathy	884
aortic valvular regurgitation	501	c. aneurysm	488
apparent diffusion coefficient (ADC)	243	c. artery	571
arteriosclerosis	211	c. blood flow	141, 307, 709
arteriovenous malformation (AVM)	565, 621	c. embolism	857
association study	135	c. infarction	49, 151, 541, 1007
asymptomatic meningioma	335	c. ischemia	157, 211, 307
atherosclerosis	571	c. metabolism	307
atopic dermatitis	960	c. thrombosis	581
atopy	960	c. vasospasm	461, 468, 473
autonomic disorder	331	cerebrospinal fluid	729
autonomic failure	643	cerebrovascular disorders	884
axon	589		

cerebrum	671	embryogenesis	766
cervical MRI	801	e., anomalies	766
cervical myelopathy	445	e., forebrain	766
chemotherapy	781, 811	encephalitis	745
childhood	383	endolymphatic hydrops	691
chorea	629	endovascular surgery	559
choristoma	5	environmental factor	167
chronic alcoholics	331	eosinophil	960
chronic inflammatory demyelinating polyradiculoneu-		epidermoid	1113
ropathy (CIDP)	1063	e. cyst	625
c., treatment	1063	epidural hematoma	833
chronic myelocytic leukemia	1097	epilepsy	79, 511
chronic stage	341	e. surgery	383
chronic subdural hematoma	141, 709	epileptic seizure	617
chronic toluene intoxication	399	Epstein-Barr virus	37
circle of Willis	431	estrogen	203
cisterna magna	320	excessive eye closure	529
clinical feature	391	extensor digitorum brevis	969
clinical manifestation	1013	extramedullary metastatic tumor	1097
clinical trials	759	[F]	
coefficient of correlation	909	familial amyloidotic polyneuropathy	14
complement	495	femoral nerve	723
compound muscle action potential (CMAP)	969, 1081	fever	59
conduction block	379	fibrin degradation products	851
confabulation	1091	fibrinogen	851
convulsion	1013	filter technique	729
copolymer-I	1051	flow sensitive alternating inversion recovery (FAIR)	
corpus callosum	633		151
cortical degeneration	925	free radical	473
cortical dysplasia	511	frontal lobe	1091
corticobasal degeneration	269, 1035	f. disorder	979
cortico-cortical inhibition	925	fronto-temporal dementia (FTD)	99, 119, 127
cryptococcal meningitis	729	fronto-temporal lobar degeneration	99
cubital tunnel syndrome	379	functional disorders	599
cytochrome c oxidase	193	fusiform aneurysm	517
cytokine	495, 589	[G]	
cytotoxic T cell	1057	gamma radiosurgery (knife)	599, 1097
[D]		gaze palsy	269
deafness	691	gene targeting	14
deep brain stimulation	947	gene therapy	901
delayed ischemic neurological deficit	461	girdle sensation	805
dementia	99, 119, 541, 884, 1035	glial fibrillary tangle	109
desmoplastic medulloblastoma	391	glioblastoma	413
detachable coil	559	g. multiforme (GBM)	325
developmental neuroanatomy	766	globus pallidus	231
diabetes mellitus	25, 1081	grading	565
diabetic polyneuropathy	909	granulomatous neurohypophysitis	5
diastolic dysfunction	501	Guam island	167
diffusion-weighted image (DWI)		Guillain-Barré syndrome	805
.....	157, 243, 581, 633, 789, 865, 919, 1113	[H]	
dissecting aneurysm	827	head injury	320
DNA pooling	135	h., countercoup	833
dural arteriovenous fistula	991	headache	827, 1013
dystonia	629	hemifacial spasm	517
[E]		hemineglect	49
early stage	325	hemiplegia	1109
echocardiography	501	herpes simplex encephalitis	979
eight cranial nerve mesenchymal differentiation	734	herpes zoster encephalitis	43
embolization	565	herpes zoster generalisatus	43

highly active antiretroviral therapy	1071
HIV-associated dementia	1071
H., pathogenesis	1071
H., treatment	1071
homocystinuria	629
hormone replacement therapy	203
HSV-tk	901
human T lymphotropic virus type I (HTLV-I) associated myelopathy	1003
hydrocephalus	425, 795
hyperbaric oxygenation	759
hyperostosis of cervical spine	445
hypertension	501, 984
hypertrophic cranial pachymeningitis	1103
hypertrophic pachymeningitis	523
hypervolemic therapy	1019
hyponatremia	53, 1019
[I]	
IgE	960
immunocompetent host	43
immunoglobulin	1063
i. therapy	1051
immunomodulation therapy	1057
infarct	661
infarction	529
initial positive wave	404
interferon	1051
i. β (IFN- β)	901
internal carotid artery occlusion	719
intracerebral hemorrhage	501
intracranial EEG monitoring	1025
intracranial hemorrhage	857
intracranial temperature	719
intracranial volume	795
intractable generalized epilepsy	1085
intrasellar cyst	625
intraventricular tumor	237
involuntary movement	297
ischemia	589
ischemic cerebrovascular disease	259
ischemic penumbra	857
[J]	
juvenile	431
[L]	
lacunae	661
lateral ventricle	237
L-dopa	425
lemniscus medialis	913
linkage study	135
low field MRI	789
lumbrical muscles	404
lumbrical/interossei recording method	1081
lung cancer	64
lupus anticoagulant	64
lymphocytic infundibulo-neurohypophysitis	5
[M]	
magnetic resonance spectroscopy (MRS)	307
malignant glioma	901
malignant lymphoma	173, 723, 781

malignant peripheral nerve sheath tumor	734
malignant tumor	1057
Marchiafava-Bignami disease	633
medial geniculate body	997
median nerve	25, 404
medulloblastoma	391
melanin producing cell	734
meningioma	973, 1103
meningitis	495, 1003
meningo-encephalitis	37
metal ions	222
metastasis	811
metastatic spine tumor	1109
MIB-1 staining index	413
microangiogram	671
middle cerebral artery	621
migraine	287
migration disorder	617
mirror movement	617
misidentification syndrome	1091
mite	960
mitochondrial aldehyde dehydrogenase	193
mixed dementia	211
molecular genetics	135
mononeuropathy	723
motor impersistence	529
motor neglect	49
motor nerve conduction studies	969
motor neuron disease (MND)	119
moyamoya disease	79, 1091
multiple cerebral infarction	64
multiple cranial neuropathy	407
multiple intracerebral hemorrhage, unknown origin	817
multiple sclerosis	745
multiple sclerosis (MS)	1051
multiple system atrophy	643
muscle biopsy	53
myelin-forming cell	609
myelitis	960
myoclonus	925
myofibroma, adult	821
[N]	
negative culture	729
neonate	795
nerve conduction studies	379
neurocytoma	237
neurofibrillary tangles (NFT)	127
neurohypophyseal germinoma	5
neuropsychological test	335
neuroradiculoneuritis	805
neurosarcoidosis	253, 805
neurosurgery	759
neurosurgical patients	759
neurotransmitter	135
NF 2 mRNA	973
NF 2 protein	973
nidus	565
night elbow athletic supporter	379

non-fluent conduction aphasia	29	radiotherapy	781, 811
normal nerve conduction	969	Ramsay-Hunt syndrome	43
number of syllables	29	Rathke's cleft cyst	929
[O]		rCBF	231, 991
occipital encephalocele	511	reconstructive surgery of jejunal interposition	59
olfactory neuroblastoma	811	reduplicative paramnesia	1091
oligodendrocyte	589	remote effect	1057
oxyhemoglobin	473	remyelination	609, 701
[P]		rhabdomyolysis	53
pachymeningitis	1013	right hemisphere	529
pain	297	[S]	
palialia	1035	sacculus	691
pallidotomy	947	schizencephaly ; open lip type	617
papaverine	488	Schwann cell	609, 701
parkinsonism	127, 269, 425, 643, 1035	S., transplantation	701
parkinsonism-dementia complex (PDC)	167	seizure	541
Parkinson's disease	167, 297, 947	sensory nerve action potential	909, 1081
P., transplantation therapy	947	sequencing	29
percutaneous transluminal angioplasty	581	serotonin agonists	507
percutaneous transluminal recanalization (PTR)	243	Serotonin Syndrome Scale : a Japanese version, The	507
perfusion	151	serum amyloid P component	14
perivascular space	661, 671	single photon emission CT (SPECT)	141, 151, 709, 865, 873, 997
periventricular leukomalacia	589	skull	821
peroneal nerve	969	s. lesion	1103
persistent primitive trigeminal artery (PPTA)	315	slowly progressive ischemic stroke	1007
Pick body	109	slowly progressive limb-kinetic apraxia	925
P. dementia	109	somatosensory evoked potential	913
Pick complex	109	spinal infarction	801
Pick's disease	99, 109, 127	spontaneous disappearance	929
pituicytoma	5	spreading depression	287
pituitary adenoma	413	staged total callosotomy	1085
pituitary gland	929	stalk	5
pituitary mass	253	stent	341, 581
plasmapheresis	1063	stenting	571
plasmin	851	steroid	1003, 1063
plasminogen activators	851	s. therapy	407, 1103
polyradiculoneuropathy	1003	stimulation	297
pontine lesion	913	stimulus-sensitive spinal myoclonus	399
pontine infarction	1109	stroke care unit	373
position sensation	801	stroke recurrence	984
positron emission tomography (PET)	873, 925	strokologist	373
pregnancy	445	subarachnoid hematoma	320
primary cerebral angitis	817	subarachnoid hemorrhage	461, 468, 488, 817, 827, 1019
prognosis	391	subarachnoid space	661
progressive supranuclear palsy (PSP)	127, 269, 643, 1035	subdural spinal hematoma	320
prophylaxis	203	symmetrical aneurysms	621
prostatic cancer	1109	[T]	
protein kinase C	473	tau	127
psammomatous type	335	temporal lobe disorder	979
psychopathology	163	temporal lobe epilepsy	383
pulsatility index	419	temporal lobectomy	1025
pure motor monoparesis	1007	tendon tap	399
pure sensory stroke	913	tentorial meningioma	997
pure word deafness	997	thalamotomy	947
pyruvate dehydrogenase	193	thalamus	231
[R]		therapeutic efficacy	203
radiation induced glioma	413		
radiation necrosis	413		

therapeutic time window	581, 857, 865	vascular smooth muscle	473
thiamine	59	vasospasm	488, 571
thinner	399	vector	901
three-dimensional CT angiography (3 D-CTA)	315	venous congestion	445
thrombolysis	373	venous ischemia	991
thrombolytic therapy	873	vertebral artery	341, 517
tissue plasminogen activator (t-PA)	857, 865	vertebrobasilar artery	827
Tolosa-Hunt syndrome	523	vertebrobasilar occlusive disease	249
transgenic mouse	14	vestibular evoked myogenic potential (VEMP)	691
transient ischemic attacks (TIA)	919	vestibular stimulation	49
transplantation	609	vibration	913
transthyretin	14	vitamine B ₁	59, 331
tremor	629	vitamine B ₁₂	331
trigeminal nerve	287	volume conduction	404
trigeminal neuralgia	1113	voluntary eye closure	529
triptans	287	[W]	
[U]		Wallenberg's syndrome	691
ubiquitin	119	water intoxication	53
ulnar nerve	25	Weber's syndrome	315
ulnar neuropathy at the elbow	25, 379	Wechsler Adult Intelligence Scale-Revised (WAIS-R)	335
ultrasonography	419	Wernicke-Korsakoff syndrome	59
urgent irradiation	1109	word repetition	29
[V]		[X]	
vascular diseases	599	Xe-CT	231
vascular factors	211
