

KEY WORDS INDEX (From vol. 54 no. 1 to vol. 54 no. 12, 2002)

[1]		
¹²³ I-IMP SPECT	667	
¹ H-MR spectroscopy	163, 935	
[3]		
3 D-SSP	667	
3 tesla MRI	841	
[A]		
acute ischemic stroke	859	
acute leukoencephalopathy	493	
acute onset	819	
acute transverse myelitis(ATM)	5	
adenomectomy	565	
agnoprotein	101	
agnosia for streets	601	
alexia of kanji	903	
alpha-synuclein	111	
alternative splicing	767	
Alzheimer's disease	175, 448, 481, 631, 673, 753, 812	
amyloid	657	
amyotrophic lateral sclerosis(ALS)	397, 903	
a. with multisystemic degeneration	685	
aneurysmal bone cyst	1075	
anisotropy	290	
anterior cerebral artery	193	
anterior interosseous nerve	605	
anticoagulant therapy	679	
Anti-GQ 1 b IgG antibody	431	
anti-phospholipid antibody	153	
apoptosis	213, 743, 890	
apparent diffusion coefficient(ADC)	290, 419	
arachnoid cyst	163	
arterial dissection	203	
asynergy	719	
ataxia	919	
autoantibody	5	
automatic registration tool	959	
autonomic failure	111	
autonomic neuropathy	657	
axillary nerve	605	
[B]		
basal ganglia	45	
basilar artery	527	
B-cell lymphoma(BCL)-6	890	
behavioral breathing	375	
bilateral peduncular infarction	57	
Binswanger's disease	631	
blindness	473	
B-mode	1075	
body temperature	139	
border zone cerebellar infarction	499	
brachial plexopathy	605	
brachial plexus neuropathy	819	
brain	935, 950	
b. death	557	
b. metastasis	1025	
b. tumor	935	
brainstem infarction	341	
burden	812	
[C]		
CAG repeat	513	
calvarial tumor	1075	
carbon monoxide(CO) poisoning	493	
carotid echography	975	
carotid ultrasonography	119	
CD 10	890	
central nervous system	890	
central sleep apnea	381	
cerebellar ataxia	35	
cerebellar degeneration	513	
cerebellar white matter	359	
cerebral aneurysm	943	
cerebral angiography	29	
cerebral blood flow(CBF)	581	
cerebral blood volume(CBV)	581	
cerebral cortical sensory disturbance	41	
cerebral dysgenesis	313	
cerebral fat embolism	693	
cerebral hemorrhage	865	
cerebral infarction	213, 247, 679, 693, 935, 950	
cerebral ischemia	139, 213, 419	
cerebrospinal fluid	235	
cerebrovascular disease	575	
cerebrovascular disorders	139	
cervical spondylosis	908	
cherry read spot	448	
chest pain	337	
chondroma	347	
chorea	919	
chronic subdural hematoma	703	
clioquinol	473	
clonic perseveration	45	
complex regional pain syndrome	707	
complication	707	
computed tomography(CT)	119, 943	
c. angiography	950	
c. perfusion	950	
conformational diseases	283	
consciousness disturbance	493, 697, 1051	
continuous muscle fiber activity	503	
contrast enhanced MRA	851	
conventional form MS(C-MS)	5	
cortical cerebellar atrophy	1097	
cortical deafness	521	
CPAP	381	
Creutzfeldt-Jakob disease	283	
criteria	557	

crossed aphasia	331	frontotemporal dementia (FTD)	743, 903
crossed cerebellar diaschisis	1007	frozen gait	499
cupulolithiasis	321	frontotemporal dementia and parkinsonism linked to chromosome 17 (FTDP-17)	221
[D]		frontotemporal lobar degeneration (FTLD)	221
decarboxylase inhibitor	127	functional brain imaging	967
deep brain stimulation subthalamic nucleus	883	functional MRI	874
delirium	1051	functional outcome	575
dementia	175, 448, 713, 777, 897, 919	functioning and non-functioning adenoma	565
d. of the Alzheimer type	307	[G]	
demyelination	359	gamma-aminobutyric acid (GABA)	1034
dentato-rubro-pallido-luysian atrophy	513, 919	gait disturbance	499
depression	595	galactosialidosis	448
determination	557	gamma knife	1025
diagnosis	557, 789	gene targeting	1034
differential diagnosis	1063	gene therapy	213
diffuse Lewy body disease	175	genetic study	615
diffusion	290	germinal matrix and intraventricular hemorrhage	609
d. -weighted image (DWI)	247, 419, 693, 859	giant fusiform aneurysm	147
dipole	241	glial cytoplasmic inclusion	111
direction-changing nystagmus	298	glucose metabolism	967
direction-changing apogeotropic nystagmus	321	glutamic acid decarboxylase	1034
discriminative sensation	41	glycine cleavage system	1069
dissecting aneurysm	193, 203	gogi aphasia	507
dissection	147	gradient echo (GRE)	841
disseminated intravascular coagulation	631	Guillain-Barré syndrome	397
dorsal respiratory group	375	[H]	
drop attack	435	<i>Haemophilus influenzae</i>	431
dynamic MR imaging	589	harmonic image	1075
dysphagia	908	Hasegawa's dementia scale-revised (HDS-R)	463
[E]		head trauma	697
echo-contrast medium	975	head trauma (traumatic brain injury)	405
echo planar imaging (EPI)	841	helical scan	943
Ehime Prefecture	615	hemiballism	595
eigenvalue	290	hemichorea	595
eigenvector	290	hemodynamics	589
electrical promontory test	521	hepatic encephalopathy	35
electroencephalogram (EEG)	241, 803	hereditary cerebellar ataxia	1068
encephalitis	789	hereditary neuropathy	657
entry	101	higher brain dysfunction	405
epidemiology	789	h. model project for, in Japan	405
epidermoid	163	higher cerebral function	903
epilepsy	255, 919	hydrocephalus	609
e. surgery	157	hypocomplementemia	153
epileptogenicity	1007	hypokalemia	427
episodic ataxia	1097	hyponatremia	23
essential tremor	327, 1051	hypophysectomy	565
everyday memory	673	hypoplasia	1003
[F]		h. of corpus callosum	1068
familial periodic ataxia	1097	hypoplastic basilar artery	29
familial spastic paraplegia	1068	hypoxia	390
fasciculus cuneatus	685	[I]	
Fisher's syndrome	431	independent component analysis (ICA)	874
FK 506	51	i. stenosis	41
fluid-attenuated inversion recovery (FLAIR)	693	independent component-cross correlation-sequential epoch analysis (ICS)	874
focal cortical dysplasia	157, 1007	incidental Lewy body disease	175
Forestier disease	908	inclusion	767
frontal cortex	45	infected subdural hematoma	703
frontal eye field	803		
frontal lobe	823, 897		

inferior olive	513	motor fluctuations	127
initial hesitation	499	motor neuron disease (MND)	713
institutionalization	812	mouse	1034
interferon (IFN)- β	5	MR angiography	851
interferon (IFN)- γ	5	MR digital subtraction angiography (DSA)	851
interleukin (IL)-10	5	MR hydrography	841
internal carotid artery	1003	MRI	41, 163, 1059
i. stenosis	851	multiple sclerosis (MS)	5
intoxication	427	multiple system atrophy	111, 390
intracerebral hematoma	823	multislice CT	943
intracerebral hemorrhage	139	Munro-Kellie Doctrine	874
intraoperative corticography	157	muscular dystrophy	397
iodine toxicity	1051	myelin swelling	685
iodoform poisoning	1051	myelopathy	435
Isaacs syndrome	503	myoclonus	448
ischemic cerebrovascular disease	581	myotonic dystrophy	719
ischemic penumbra	859	[N]	
isolated finger flexion	503	natriuretic peptides	23
Issorar	874	necrosis	359
[J]		neurofibrillary tangle	767
Japan	789	neuralgic amyotrophy	605
JC virus	101	neurocristopathy	385
juvenile-onset multiple brain infarction	29	neurodegeneration	777
[L]		neurofibrillary tangles	175, 777
lactate	163	neurofibromatosis type I (NF I)	1003
late onset	615	neurologic disease	381
L-DOPA-induced dyskinesia	133	neuromuscular disease	397
L-DOPA monotherapy	127	neuromyotonia	503
left temporal lobe	507	neuronal channelopathy	1097
leukoencephalopathy	51	neuropathology	51
Lhermitte sign	153	neuropsychology assessment	463
liver transplantation	657	neurosarcoidosis	337
long-term retension	307	neurosonology	975
longitudinal study	307	neurovascular decompression	435
long term depression (LTD)	647	non-ketotic hyperglycinemia	1068
long-term trial	1041	non-kinetic hyperglycinemia	1069
lumbar	347	non-positional headache	991
[M]		[O]	
magnetic resonance angiography	341	occipital lobe	513
magnetic resonance imaging	575, 693	old putaminal hemorrhage	521
magnetoencephalogram	803	oligoclonal IgG bands (OB)	5
magnetoencephalography	241, 1007	On dine's curse	385
malignant lymphoma	890	One-Step Button	985
mean transit time	581	optic neuritis	997
mechanism	298, 321	optic-spinal form MS (OS-MS)	5
medial medullary infarction	341	osteophyte	908
medial temporal lobe epilepsy	157, 241, 313	osteopontin immunoreactivity	51
medical screening	473	overdrainage	707
meningioma	589	[P]	
meningitis	789	pachymeningitis	235
meningoencephalitis in Japan	789	palinopsia falcotentorial meningioma	255
mesocorticolimbic dopaminergic system	423	P-ANCA (antineutrophil cytoplasmic antibody)	235
metabolic breathing	375	parital lobe	507
micro and macroadenoma	565	Parkinson's disease	
microbleeds	865		127, 133, 175, 390, 489, 883, 897, 1041
microdysgenesis	313	parkinsonism	221, 667
middle cerebral artery	147, 193	pathology	1097
mini-mental state examination (MMSE)	463	peduncular hallucination	423
modification	753	percutaneous endoscopic gastrostomy	985

perfusion CT	581	selective 5-HT _{1A} receptor agonist	133
perfusion-weighted image (PWI)	859	selegiline hydrochloride	1041
periodic paralysis	427	semantic dementia	221, 507, 903
periventricular leukomalacia	609	sensory trick	1051
persistent carotid-basilar anastomosis	341	shunt malfunction	707
persistent primitive hypoglossal artery	341	Sjögren syndrome	359, 997
persistent vegetative state	57	sleep	819
PHF	753	s.-related breathing disorders	381
phonologically plausible writing errors	481	small artery disease	865
pituitary apoplexy	697	subacute myelo-optico-neuropathy (SMON)	473
pituitary surgery, history of	565	single photon emission computed tomography (SPECT)	959
polycythemia	331	spinal injury	23
porencephalic cyst	723	spinal tumor	347
portal-systemic shunt	35	spin echo (SE)	841
positive and negative syndrome scale (PANSS)	489	spontaneous intracranial hypotension	991
positron emission tomography (PET)	967	statistical mapping	959
postcentral infarction	41	stenosis	527
posterior funiculus	513	stent placement	527
prefrontal cortex	803	stereotactic radiosurgery	1025
pre-I	375	stereotypy	45
prenatal magnetic resonance imaging	609	stroke	247, 865
prion disease	283	stunned myocardium	719
prion protein	283	subacute combined degeneration of the spinal cord	685
procedural memory	307	subarachnoid hemorrhage	139, 203
progressing stroke	679	substantia nigra	423
progressive multifocal leukoencephalopathy (PML)	101	superimposed mapping	959
progressive non-fluent aphasia	713	supplementary motor cortex	823
progressive supranuclear palsy (PSP)	1051	suprachiasmatic nucleus	111
proton MRS	163, 935	suprascapular nerve	605
pyrogenic spondylitis	1059	surgical treatment	819
[Q]		synapse	743
quality of life (QOL)	985	synaptic function	967
quantification	959	syringomyelia	337
quetiapine fumarate	489	[T]	
[R]		T2-weighted MRI	865
radiation necrosis	1025	tandospirone	133
rapid cyler	595	tanscranial Doppler	975
repeatable battery for the assessment of neuropsychological status (RBANS)	463	task-specific dystonia	327
receptor	101	task-specific tremor	327
r. imaging	967	tau	743, 753
reflex sympathetic dystrophy	707	t. protein	777
rehabilitation	405	tauopathy	743, 767
relapsing myelitis	153	temporo-parietal impairment	713
renal tubular acidosis	427	tensor	290
repetitive transcranial magnetic stimulation (rTMS)	647	test battery	897
respiratory failure	397	Th 1/Th 2 balance	5
respiratory regulation	390	thalamus	595
respiratory related anxiety potential	375	thoracic spondylosis	1059
right temporoparietal dysfunction	601	three-dimensional imaging	943
risk factors of cerebral infarction	29	toluene	427
Rivermead Behavioural Memory Test, the Japanese version of	673	topographical disorientation	601
rostral basilar artery occlusion	57	trace	290
[S]		transcortical motor aphasia	823
saccadic eye movement	803	transcranial Doppler (TCD)	1075
sarcoidosis	337	transcranial magnetic stimulation (TMS)	647
		transcription	101
		transient global amnesia	419

transient ischemic attack	247	vertebrobasilar artery	203
transthyretin	615	vertebrobasilar circulation	29
t. Met 30-associated familial amyloid polyneuropathy	615	vertigo, horizontal canal benign paroxysmal positional	298, 321
treatment	298	virtual lesion	647
t. outcome	1025	visual allesthesia	255
tremor	327	visual disturbance	473
tumor necrosis factor (TNF)- α	5	[W]	
twin embolization syndrome	723	Wechsler adult intelligence scale-revised (WAIS-R)	463
[U]		Wallenberg syndrome	203
Undine	385	Wallerian degeneration	575
unified Parkinson's disease rating scale (UPDRS)	489	wearing-off phenomenon	127
urinary tract infection	703	Wegener's granulomatosis	235
[V]		West syndrome	723
vacuolar myelopathy	685	Wilson's disease	45
vascular damage	51	word fluency	823
vascular dementia	631	word-meaning	481
vascular disease	950	writer's cramp	1051
vascular ocular syndrome	119	writing tremor	1051
vascular parkinsonism	499	[Z]	
vasculality	589	Zarit Caregiver Burden Interview	812
ventral respiratory group	375		
vertebral artery	193, 435
