CONTENTS

SYMPOSIUM  Minimally Invasive Total Hip Arthroplasty and Option for Cementless Stems
Preface .......................................................................................................................... Satoshi NAGOYA • 184

Is Short Stem with Fins (GTS Stem) Valid for Minimally Invasive
Total Hip Arthroplasty? ................................................................. Yoko MIURA • 185

Characteristics of Zweymüller Type Stem (SL–PLUS® and SL–PLUS® MIA Stem)
for the Elderly and Minimally Invasive Total Hip Arthroplasty …… Yutaka INABA, et al • 191

Fixation and Minimally Invasive Total Hip Arthroplasty
of Rectangular Curved–short Stem ……………………………………… Hideki FUJII • 199

Tapered Wedged Cementless Stem and Minimally Invasive Surgery
in Total Hip Arthroplasty ……………………………………………… Katsuya NAKATA, et al • 205

Clinical Concept of Less Invasive Short Anatomical Stem ………… Tamon KABATA, et al • 217

Fixation and Invasiveness of Tapered Stems in Total Hip Arthroplasty … Takuya NAKAMURA • 225

LEcTURE
Essential Physical Examinations for Evaluation
for Throwing Athletes ………………………………………………… Motoyuki FUJISAWA, et al • 233

CLINICAL EXPERIENCE
The Efficacy of Every Weekly Injections Compared with 2 Weekly Injections
of Intra–Articular Hyaluronic Acid Concomitant with Home Exercise
for Osteoarthritis of the Knee ……………………………………………… Yoshitaka TODA • 251

CASE REPORT
Anterior Decompression Fusion with Manubrium Splitting Approach
for the Upper Thoracic Spine ……………………………………………… Keita KAJIKAWA, et al • 257
