

II

月経異常 不妊・不育 避妊

■本章で使用する略語

ACOG : The American College of Obstetricians and Gynecologists
 ACTH : adrenocorticotrophic hormone
 AIH : artificial insemination by husband
 AMH : anti-mullerian hormone
 AN : anorexia nervosa
 APTT : activated partial thromboplastin time
 ASRM : American Society for Reproductive Medicine
 BMI : body mass index
 CBAVD : Congenital bilateral absence of the vas deferens
 CGH : Comparative Genomic Hybridization
 Cu-IUD : copper-bearing intrauterine device
 DHEA-S : dehydroepiandrosterone sulfate
 DSM : Diagnostic and Statistical Manual of Mental Disorders
 EC : emergency contraception
 ECP : emergency contraceptive pills
 ELISA : enzyme-linked immunosorbent assay
 ESHRE : European Society of Human Reproduction and Embry
 FCS : fetal bovine serum
 FSH : follicle stimulating hormone
 FT : falloposcopic tuboplasty
 FT₃ : free triiodothyronine
 FT₄ : free thyroxine
 FXTAS : fragile X associated tremor/ataxia syndrome
 GnRH : gonadotropin releasing hormone
 hCG : human chorionic gonadotropin
 HH : hypergonadotropic hypogonadism

hMG : human menopausal gonadotropin
 HOMA-R : homeostasis model assessment ratio
 HSG : hysterosalpingography
 ICSI : intracytoplasmic sperm injection
 IgA : immunoglobulin A
 IgG : immunoglobulin G
 IgM : immunoglobulin M
 IUS : intrauterine system
 IVF : in vitro fertilization
 LH : luteinizing hormone
 LH-RH : luteinizing hormone-releasing hormone
 LNG-IUS : levonorgestrel-releasing intrauterine system
 OC : oral contraceptives
 OHSS : ovarian hyperstimulation syndrome
 PCOS : polycystic ovary syndrome
 PMDD : premenstrual dysphoric disorder
 PMS : premenstrual syndrome
 POI : primary ovarian insufficiency
 PTEN : Phosphatase and Tensin Homolog Deleted from Chromosome 10
 rFSH : recombinant follicle stimulating hormone
 SLE : systemic lupus erythematosus
 SSRI : selective serotonin reuptake inhibitors
 STD : sexually transmitted disease
 TSH : thyroid stimulating hormone
 UAE : uterine artery embolization
 UPSI : unprotected sexual intercourse
