Special Articles Pathophysiology and treatment of central serous chorioretinopathy

1. Accumulation and absorption of subretinal fluid **Mihori Kita** 121
2. Pathophysiology of central serous chorioretinopathy
based on fluorescein angiography **Kanji Takahashi** 128
3. Indocyanine green angiography in central serous chorioretinopathy **Masahiro Morimoto et al** 136
4. Optical coherence tomography in central serous chorioretinopathy **Ichiro Maruko** 142
5. Fundus autofluorescence in central serous chorioretinopathy **Tetsuju Sekiryu** 150
6. Mechanism of central serous chorioretinopathy discussed with the risk factors ... **Shigeru Honda** 156
7. Recent therapeutic strategy of central serous chorioretinopathy **So Goto et al** 160

Practical Use of OCT

- The point of distinguishing between macular hole and macular pseudohole **Chieko Shiragami** 166

Clinics in Thyroid Eye Disease : Starting with the Basics

Pathophysiology and management of intraocular pressure increase

- in thyroid eye disease : differential diagnosis with glaucoma **Shinji Okubo** 172

Let's share powerful Neuro-ophthalmology

- Clinical application and interpretation of electrooculogram **Ken Asakawa et al** 178

Atlas

- A case of cavernous hemangioma in the macula followed by detection
of cerebral and brainstem cavernous hemangioma **Shinji Makino et al** 184
- A case of corneal melting and perforation following cataract surgery **Rihito Tachibana et al** 188

Clinical Studies and Articles

- A case of impaired vision due to glistening and whitening
of hydrophobic acrylic intraocular lens **Yuki Hidaka et al** 199
- A case of tuberculous uveitis treated by topical corticosteroid **Kei Homma et al** 203
- A case of bilateral retrobulbar neuritis as manifestation of anti-neutrophil cytoplasm
circulating antibody (ANCA) following systemic propylthiouracil **Takashi Kudo et al** 209
- Effect of washout for reduction of the number of instillations for glaucoma **Yasuhiro Hayashi et al** 215
- Survey on the actual use of eyedrops for glaucoma by elderly patients **Yasuhiro Hayashi et al** 219
