Special Issue (Congress of Clinical Ophthalmology, October 2012)

Clinical features of retinitis pigmentosa with *EYS* gene mutation

in the JapaneseMasaki Iwanami et al 275

Current status of optic aids for near vision prescribed to low-vision persons

with previous cataract surgeryTomomi Nishida et al 281

Laser vision correction for refractive error after previous radial keratotomyKeiko Yasuoka et al 285

Is it necessary to perform three sessions during induction

of ranibizumab monotherapy?Shigeyuki Ijiri et al 291

Spontaneous closure of macular hole in a case of diabetic retinopathySachiyo Matsuo et al 297

Review of ten cases of incomplete central artery occlusionNorio Okamoto et al 301

Fundus autofluorescence in eyes of age-related macular degeneration

with serous retinal detachment.....Takayuki Tanaka 305

Correlation between visual field loss and thickness of retinal nerve fiber layer

in the circumpapillary and macular ganglion cell complex by two types
of spectral-domain optical coherence tomograph in glaucomatous eyesTsutomu Yamashita et al 313

Accuracy of axial length in eyes with low signal-to-noise ratio

measured by OA-1000TMKazuki Matsuura et al 321

Effect of diquafosol sodium ophthalmic solution for dry eye

after cataract surgery.....Tetsuji Takeshita 327

Eosinophilic granuloma, or Kimura disease, in the lacrimal gland

in a senile patient.....Shin Mizoguchi et al 331

A case with severe ocular manifestations leading to the diagnosis

of premenstrual syndromeHirotaka Hashimoto et al 337

A case of deep-seated conjunctival foreign body with protracted courseMichiko Takamiya et al 341

Peripheral visual field in patients of retinitis pigmentosa

with fair dark adaptationKiyoshi Akeo et al 345

A case of cryptococcal meningitis with optic neuropathyKiyo Shibata et al 351

Topic of the Month

Retinal ganglion cell layer thickness in glaucoma**Sachiko Udagawa** et al 245

Practical Use of OCT

Retinal disorder with thickened retina : epiretinal membrane**Takashi Katome** et al 250

Clinics in Thyroid Eye Disease : Starting with the Basics

What is the thyroid eye disease?-1**Hirohiko Kakizaki** 256

Let's share powerful Neuro-ophthalmology

Ophthalmologists should manage ocular myasthenia gravis!**Osamu Mimura** 262

Clinical Studies and Articles

Anterior ischemic optic neuropathy and central retinal artery

occlusion in a case of allergic granulomatous angiitis

(Churg-Strauss syndrome)**Chizuru Inoue** et al 369

Survey on drugs contraindicated for patients with glaucoma

by cataract operation**Yasuhiro Hayashi** et al 377

Four cases of retinal capillary hemangioma treated

by pars plana vitrectomy**Sayaka Hirakawa** et al 383

Retinal and choroidal vasooclusion in a case of

Tolosa-Hunt syndrome**Kumi Shirai** et al 389
