Special Issue (Congress of Clinical Ophthalmology, October 2012)

Choroidal hemangioma and serous retinal detachment in two cases of Sturge-Weber syndrome	Keisuke Nitta et al	655
A case of acute retinal necrosis in the fellow eye sixteen years after the first eye	Shunichiro Asano et al	663
Sensitivity of fluorescein disappearance test for congenital nasolacrimal duct obstruction	Nozomi Matsumura et al	669
Multi-institutional survey on normal-tension and primary open-angle glaucoma in 2012	Yuria Arai et al	673
Outbreak of toxic anterior segment syndrome in rapid succession in a short period	Hisato Gunji et al	681
Comparison of postoperative and predicted refraction with calculation formulas for intraocular lens	Risako Higa et al	687
A case of rhegmatogenous retinal detachment with prolonged asymptomatic retention of intraocular foreign body	Kenji Kawazoe et al	693
Outcome of vitreous surgery with high-speed cutter	Takao Hirowatari et al	697
Choroidal coloboma and corneal opacity in a case with terminal chromosomal deletion of 14q32	Koji Sudo et al	701
A case of focal choroidal excavation that improved after treatment for polypoidal choroidal vasculopathy	Atsushi Yamasaki et al	705
One-year outcome of intravitreal ranibizumab for age-related macular degeneration	Kentaro Sueoka et al	711
Correction of astigmatism after insertion of toric intraocular lens with recommended and one-step higher power	Toshihiro Yanagawa	717
Refraction following cataract surgery with or without vitrectomy using various three intraocular lenses	Naoko Tachi et al	723
Palisades of Vogt in the superior, horizontal and inferior sector. Characteristics and changes after subconjunctival hemorrhage	Minoru Matsubara	729
A case of gonococcal keratoconjunctivitis with polyarthritis	Tomoka Iwamatsu et al	737
Topical interferon alpha-2b was effective for recurrent conjunctival papilloma in a case negative for human papilloma virus	Maya Yokoo et al	741
Microorganisms detected from lacrimal stents inserted after external dacryocystorhinostomy	Junji Onogi	745
Endonasal dacryocystorhinostomy was effective in three cases of traumatic nasolacrimal obstruction	Tamaki Sumi et al	749
Horner syndrome following cardiac surgery in a child	Asami Tsuchiya et al	755
Systemic gamma globulin was effective in a case of neurosarcoidosis with diplopia as the initial manifestation	Shinobu Kobayashi et al	759
Relation between impaired ocular motility and the band connecting superior and lateral rectus muscles in eyes with high myopia	Reika Kono et al	765
Abducens palsy as the initial manifestation of subarachnoid hemorrhage in a diabetic patient	Hiroko Ebihara et al	771
Intravitreal ganciclovir was effective for cytomegalovirus retinitis in a child	Kaoru Nishimura et al	777
Review of uveitis in patients over 70 years of age	Mizuki Fujiwara et al	783

Topic of the Month

Retinal regeneration therapy for retinal diseases using ES, iPS-derived cells**Michiko Mandai** 633

Practical Use of OCT

Repeatability and reproducibility of images with different optical
coherence tomography**Takehiro Yamashita** 638

Clinics in Thyroid Eye Disease : Starting with the Basics

What is the points of diagnostic imaging in Graves' orbitopathy ?
How do you evaluate orbital inflammation by using neuroimaging ?**Masato Hashimoto** 642

Let's share powerful Neuro-ophthalmology

Prism correction for neuro-ophthalmological diseases**Ken Asakawa** et al 648

Clinical Studies and Articles

A case of acquired retinal astrocytoma treated by photodynamic therapy**Seiichiro Oishi** et al 797

Aggressive posterior retinopathy of prematurity in an infant
born after gestation of 34 weeks**Mitsuhiko Shinjo** et al 803

A case of cytomegalovirus retinitis following intravitreal
injection of triamcinolone acetonide**Chizu Touge** et al 809
