Special Issue (Congress of Clinical Ophthalmology, October 2012)

Drusenoid detachment of retinal pigment epithelium turned into retinal pigment epithelial tear five years later	Mariko Kawai et al	1469
Review of cases necessitating exchange of intraocular lens for glistening of the surface	Haruhiko Yamada	1477
Changes in color vision following cataract surgery in patients with acquired dyschromatopsia	Minako Ushijima et al	1483
Stereoscopic perception of 3D images in patients after surgery for esotropia	Takao Endo et al	1489
Short-term outcome of simultaneous 360-degree trabeculotomy and cataract surgery	Asami Nakahira et al	1495
Outcome of trabeculectomy in eyes with various types of cataract surgery	Masayuki Hirano et al	1501
Outcome of Ahmed glaucoma valve implantation	Rishu Inoue et al	1507
Vitreous surgery for retinal detachment in a case of von Hippel-Lindau disease	Tomoko Nakamukai et al	1511
A case of cavernous hemangioma of the retina with exudative retinal detachment	Yusaku Miura et al	1515
One-year outcome of intravitreal ranibizumab for exudative age-related macular degeneration with good visual acuity	Yoshiro Okano et al	1521
Refractive error measured by different instruments after phacotrabeculectomy	Go Arimoto et al	1525
Thinning of inner retinal layer in the posterior fundus in eyes with superior segmental optic nerve hypoplasia	Masayuki Inoue et al	1533
Refractive error in eyes implanted with either of three types of intraocular lens with the same A constant	Toyohiro Tsumura et al	1539
Intraocular pressure in rabbits implanted with viscous material in the anterior chamber	Hiroyuki Miyashita et al	1547
A case of choroidal malignant melanoma treated by diode laser	Yoshifumi Kusumoto et al	1553

Topic of the Month

Anti-angiogenic treatment for intraocular vascular diseasesYusuke Murakami et al 1437

Practical Use of OCT

The usefulness of optical coherence tomography for determining an indication

for the treatment of the disease associated high myopiaKaori Sayanagi 1446

Clinics in Thyroid Eye Disease : Starting with the Basics

Management of thyroid associated ophthalmopathy—strabismus surgeryAkiko Kimura 1452

Let's share powerful Neuro-ophthalmology

Mild form of thyroid-associated ophthalmology, orbital crowded syndrome,

neuro-ophthalmologic issues due to higher brain dysfunction and side

effects of psychotropic agentsMasato Wakakura 1458

Atlas

A case of focal choroidal excavation in the maculaYusuke Arai et al 1464

Clinical Studies and Articles

A case of Vogt-Koyanagi-Harada disease manifesting multiple

white dots with ultimate visual recoveryTomoko Shiba et al 1563

Effect of LASIK kinetic stereopsisSeiki Katakura et al 1573

Two-year outcome of intravitreal bevacizumab for myopic

choroidal neovascularizationRieko Furuhashi et al 1577
