Special Issue (Congress of Clinical Ophthalmology, October 2013)

Evaluation of Casey Eye Institute camera for photographic documentation of opaque crystalline lens

Natsuko Hatsusaka et al 1413

Comparison of polymer-tipped and metal-tipped irrigation-aspiration instruments in irrigation and aspiration of anterior chamber

Chika Kurosawa et al 1421

Second-order component of multifocal electroretinogram in eyes with glaucoma

Seiji Takagi et al 1427

Unilateral acute idiopathic maculopathy in a case following infection by Coxsackie virus

Shogo Yamada et al 1433

Two cases of sarcoidosis with nodules simulating choroidal tumors

Yukio Sakai et al 1441

One-year outcome of macular hole treated by hemi-inverted internal limiting membrane flap technique

Toshiya Sakurai et al 1449

B-mode ultrasonography was useful in the diagnosis in a case of capsular block syndrome

Yuuka Yamamoto et al 1455

Insertion of silicone tube of Baervelt implant through the ciliary sulcus in a case of glaucoma

Yoshiki Tanabe et al 1459

Changes in intraocular pressure following instillation of fluorometholone ophthalmic solution

Akiyoshi Nitta 1463

Outcome of cataract surgery in eyes implanted with glaucoma valve

Rishu Inoue et al 1469

Eventual closure of macular hole that developed after vitreous surgery for optic disc pit maculopathy

Naoki Okamoto et al 1473

Outcome after switching from intravitreal ranibizumab to aflibercept for age-related macular degeneration

Setsuko Kawakami et al 1477

A case of congenital dacryocystocele treated by puncture with an 18-gauge needle

Yuka Suzuki et al 1483
Topic of the Month
Improvement of measurement and interpretation of visual field

Go for the Expert of Oculoplastic Surgery!
Basic knowledge and technique for Ophthalmic Plastic Surgery:

Practical Use of OCT
Evaluation of glaucoma progression using optical coherence tomography

Clinical Studies and Articles
Systemic cyclosporine was effective in a case of vernal conjunctivitis
Short-term outcome of LASIK
Clinical psychological counseling for children with functional visual disturbances
Efficacy and safety of tosufloxacin ophthalmic solution and its effectiveness
