Editorial Board				
	Taiji Sakamoto	Yasuyuki Suzuki	Masaru Inatani	
	Yuichi Hori	Koji Nishiguchi	Daijiro Kurosaka	

Special Articles Now and future of genome analysis —What the analysis results bring to clinical ophthalmology

- 1640 Point of care genomic tests in infectious disease Satoko Nakano
- 1647 Genetic analysis of retinitis pigmentosa and current issues in
the Japanese population Kensuke Goto et al
- 1652 Elucidation of pathogenesis of non-infectious uveitis by genetic findings Masaki Takeuchi et al
- 1658 Primary open-angle glaucoma genetics : recent advances and clinical
implications Yukihiro Shiga
- 1665 The genetic background of central serous chorioretinopathy Yoshikatsu Hosoda
- 1672 Genomic analysis and risk assessment of age-related macular degeneration
and a stepping stone to therapeutic development Shigeru Honda
- 1680 Elucidation of the pathophysiology of Stevens-Johnson syndrome with
severe ocular complications using genomic analysis Mayumi Ueta
- 1692 Macular dystrophy: clinical and molecular genetic characteristics Kaoru Fujinami et al
- 1706 Genetic analysis of early-onset retinal dystrophies Kentaro Kurata

Topic of the Month

- 1631 Pterygium—things to consider now Kazunori Miyata

Clinical Challenge

- 1626 A cataract case with closure angles with laterality Eiichi Nishimura

Updates of myopia prevention—based on the international standards

- 1714 Glaucoma surgery in highly myopic eyes Takeshi Yoshida

Monthly lecture for lacrimal drainage system

- 1718 Flow of medical examination and treatment for watering eye Tomoyuki Kamao

Clinical Studies and Articles

- 1725 A case of 15 years of social withdrawal with proliferative diabetic retinopathy
..... Tetsuya Muto et al
- 1730 A case of HLA-B51 positive acute posterior multifocal placoid pigment
epitheliopathy with retinal capillaritis Kosuke Ichihara et al

Clinical Note

- 1740 Three cases of meibomian gland dysfunction improved tearing and
cutaneous manifestations treated with topical azithromycin Yuri Harada et al
- 1745 A case of allergic contact dermatitis on the left fingers of an ophthalmologist due to
oxybuprocaine hydrochloride 0.4% (Benoxil®) Ko Iwase
