

A Case of this Month

A case of anti-aminoacyl tRNA synthetase antibody syndrome with positive anti-KS antibody

Yayoi YAMANA, et al564

Case Report

A case of eyelash trichomegaly due to anti-EGFR antibody

Shun OHMORI, et al569

A case of multiple fixed drug eruption with severe mucosal involvement

Chihiro NISHIMURA (HIRAI), et al573

A case of toxic epidermal necrosis due to alloupurinol: Analysis of the causal component of ingredient and background of the development

Yoshifumi MAUMI, et al579

A case of lichenoid drug eruption due to gabapentin

Kayo ENOSAWA, et al584

A case of lichen planus with bronchilitis obliterans mimicking paraneoplastic pemphigus

Misuzu MARUYAMA, et al589

Two cases of chronic radiation dermatitis following coronary interventional radiology

Tomoko KAYAMA, et al593

A case of anti-phospholipid antibody syndrome with an acute exacerbation of ischemic symptom successfully treated with percutaneous transluminal angioplasty

Sae TANEMOTO, et al599

A case of adult-onset Still's disease with persistent plaques and papules and eosinophilia

Kenji YOSHIDA, et al605

A case of Kimura disease occurring in the occipital lesion of the head without eosinophilia in the peripheral blood

Ayaka CHAYA, et al610

A case of diffuse neonatal hemangiomas with spontaneous resolution

Misaki ISE, et al615

A case of Muir-Torre syndrome with keratoacanthoma

Yukie SATO, et al621

A case of solitary fibrous tumor of the skin

Emiko OKADA, et al627

A case of malignant melanoma successfully treated with boron neutron capture therapy

Masao YONEZAWA, et al633

Subcutaneous abscess caused by *Mycobacterium chelonae* resulting from a cat bite

Takeaki SHIODA, et al639

Clinical Epidemiology

Survey of alopecia areata seen at Juntendo University Hospital

Junko KOIDE, et al643
