

Topics Recent Advances in Drug Repositioning for Neurological Disorders

- 9 3 5 **Drug Repositioning for Neurological Disorders: Preface**
Satoshi Kuwabara
- 9 3 6 **Development of a Novel Treatment for Neurological Disorders
by Drug Repositioning**
Satoshi Saito and Masafumi Ihara
- 9 4 3 **Ropinirole Hydrochloride, a Candidate Drug for ALS Treatment**
Shinichi Takahashi, et al.
- 9 5 3 **Parkinson's Disease: amantadine, zonisamide, dabrafenib**
Tomoko Okamoto
- 9 6 1 **Drug Repositioning for Alzheimer's Disease**
Masafumi Ihara and Satoshi Saito
- 9 7 1 **Development of Novel Therapeutics for Core Symptoms of
Autism Spectrum Disorder:
An Integrative Approach of Clinical Trials, Neuroimaging,
and Genomics**
Hidenori Yamasue
- 9 8 1 **Artificial Intelligence-based Drug Discovery
and Drug Repositioning**
Hiroshi Tanaka

Review

- 9 9 3 **The Neural Mechanisms of Joint Attention**
Chiyoko Nagai

Case Report

- 1 0 0 3 **A Case of Suspected Nonparaneoplastic Autoimmune
Panencephalitis with Widespread Multifocal Brain Lesions
and Treatable Dementia Following Pernicious Anemia:
A Seven Year Follow-Up Study**
Toshiyuki Sakai, et al.
