

Topics Invitation to the Vagus Nerve World

- 955 **Physiology of the Vagus Nerve: Basic Medical Research from the Past to the Present**
Ikuko Sato-Suzuki
- 959 **Electrophysiological Mechanism Underlying Vagal Nerve Activity in Mice**
Mamoru Tanida
- 965 **Vasovagal Syncope: Mechanisms and Treatments**
Toshiyuki Furukawa
- 971 **Role of the Vagus Nerve in the Gut-Brain Axis: Development and Maintenance of Gut Regulatory T Cells via the Liver-Brain-Gut Vago-Vagal Reflex**
Takanori Kanai and Toshiaki Teratani
- 979 **Ascendence of Abnormal α -synuclein Fibrils Through the Vagal Nerve in Parkinson's Disease**
Kinji Ohno and Masaaki Hirayama
- 985 **Vagus Nerve Stimulation Therapy for Drug-Resistant Epilepsy**
Ichiro Sugiyama, et al.
- 991 **Clinical Application of Transcutaneous Auricular Vagus Nerve Stimulation**
Takamichi Yamamoto
- 997 **Vagus Nerve Stimulation for Depression**
Atsuo Yoshino, et al.
- 1003 **Hop Bitter Acids Activate the Brain-Gut Axis: Vagal Stimulus via Food Ingredients**
Yasuhisa Ano
- 1011 **Polyvagal Theory and Its Clinical Potential: An Overview**
Hisashi Hanazawa

Review

- 1019 **Development of Deep Convolutional Neural Network-Based Algorithm for Muscle Biopsy Diagnosis**
Mariko Okubo, et al.

Case Report

- 1025 **A Patient Developing Guillain-Barré Syndrome After Receiving the BNT162b2 COVID-19 mRNA Vaccine**
Namiko Oshibe, et al.
- 1044 Information for Authors
