

## ＜キーワード基準例＞

本誌ではキーワードの統一のために下記の基準例を設けました。投稿されるかたはこれを中心にキーワードをおつけ下さい。（編集部）

Abducent nerve    Accessory nerve    Accident prevention  
Achoondroplasia    Acoustic nerve    Acromegaly  
Acrylates    Action potentials    Amebiasis    Amygdaloid body  
Anesthesia    Aneurysm    Angiomatosis  
Anterior horn cells    Arachnoid    Arachnoiditis  
Arnold-Chiari deformity    Arteriovenous fistula  
Arteriovenous malformations    Astrocytoma    Athetosis

Basal ganglia    Basilar artery    Blood-Brain barrier  
Bone cyst    Brachial plexus    Brain abscess    Brain chemistry  
Brain concussion    Brain death    Brain edema    Brain injuries, acute  
Brain neoplasms    Brain stem

Carotid arteries    Carotid artery, external    Carotid artery, internal  
Carotid artery thrombosis    Carotid body    Carpal tunnel syndrome  
Cauda equina    Caudate nucleus    Causalgia    Cerebellar neoplasms  
Cerebellum    Cerebral aneurysm    Cerebral angiography  
Cerebral anoxia    Cerebral aqueduct    Cerebral arteries  
Cerebral arteriosclerosis    Cerebral arteriovenous malformations  
Cerebral cortex    Cerebral embolism and thrombosis  
Cerebral hemorrhage    Cerebral ischemia, transient  
Cerebral sclerosis, diffuse    Cerebral ventricle neoplasms  
Cerebral ventricles    Cerebrospinal fluid    Cerebrospinal fluid shunts  
Cerebrospinal otorrhea    Cerebrospinal rhinorrhea  
Cervical plexus    Cervicobrachial neuralgia  
Chemoreceptors    Chondroma    Chordoma  
Chordotomy    Cisterna magna    Corpora quadrigemina  
Corpus callosum    Corticosterone  
Cortisone    Cranial fossa, posterior    Cranial sinuses  
Craniopharyngioma    Craniosynostoses    Craniotomy  
Cryogenic surgery    Cushing's syndrome    Cysticercosis

Decubitus ulcer    Dermoid cyst    Dexamethasone  
Diabetes insipidus    Diencephalon    Dwarfism, pituitary

Echinococcosis    Echoencephalography    Education, medical, graduate  
Electric conductivity    Electroencephalography  
Electromyography    Electrophysiology    Encephalitis  
Encephalitis, post-vaccinal    Encephalocele    Encephalomyelitis  
Encephalomyelitis, allergic    Eosinophilic granuloma  
Ependyma    Ependymoma    Epilepsy, focal  
Epilepsy, grand mal    Epilepsy, temporal lobe  
Epilepsy, traumatic    Evoked potentials  
Exostoses    Extrapyramidal disorders    Extrapyramidal tracts

Facial nerve    Facial neuralgia    Femoral nerve  
Fibrous dysplasia of bone    Froehlich's syndrome  
Frontal lobe

Ganglia, autonomic    Ganglia, basal    Ganglia, spinal  
Glioblastoma multiforme    Globus pallidus    Glossopharyngeal nerve  
Glucocorticoids    Gyrus cinguli

Hamartoma    Head injuries    Hemangioma    Hematoma, epidural  
Hematoma, subdural    Herpes simplex    Herpes zoster  
Hippocampus    History of neurosurgery    Hydranencephaly  
Hydrocephalus    Hydrocephalus, normal pressure  
Hydrocortisone    17-Hydroxycorticosteroids  
Hydroxyprogesterone    Hypertension

Hypoglossal nerve    Hypophysectomy    Hypotension, controlled  
Hypothalamo-Hypophyseal system    Hypothalamus  
Hypothermia, induced

Intervertebral disk displacement    Intracranial pressure

Jacksonian seizure

Lasers    Limbic system    Lumbosacral plexus

Median nerve    Medulla oblongata    Medulloblastoma  
Melanoma    Membrane potentials    Memory    Meniere's disease  
Meningioma    Meningitis    Meningitis, pneumococcal  
Meningocele    Motor cortex    Multiple myeloma  
Musculocutaneous nerve    Myelin sheath    Myelitis  
Myelitis, transverse    Myelography

Neoplasms, experimental    Nerve compression syndromes  
Nerve degeneration    Nerve regeneration    Neural conduction  
Neural transmission    Neuroblastoma    Neuroepithelioma  
Neurofibromatosis    Neuroma    Neuromuscular junction

Obturator nerve    Oculomotor nerve    Occipital lobe  
Olfactory nerve    Oligodendroglioma    Optic chiasm  
Optic nerve    Osteitis deformans    Osteoma

Pain    Paraplegia    Parietal lobe    Parkinsonism  
Peripheral nerve neoplasms    Peripheral nerves    Phantom limb  
Phrenic nerve    Pineal body    Pinealoma  
Pituitary neoplasms    Platybasia    Pneumoencephalography  
Polyradiculitis    Pons    Prednisolone  
Prednisone    Pseudotumor cerebri    Psychosurgery  
Pyramidal tracts

Radial nerve    Radiation injury    Radiation injury, experimental  
Radioisotope scanning    Radioisotope teletherapy  
Raynaud's disease    Red nucleus    Reticular formation

Scalenus anticus syndrome    Sciatic nerve    Sella turcica  
Sinus thrombosis    Skull fractures    Skull neoplasms  
Somatosensory cortex    Spina bifida    Spinal cord  
Spinal cord compression    Spinal cord injuries    Spinal cord neoplasms  
Spinal fusion    Spinal injuries    Spinal neoplasms  
Spinal nerve roots    Spinal nerves    Spinal osteophytosis  
Spinothalamic tracts    Spondylitis    Spondylolisthesis  
Stellate ganglion    Stereotaxic techniques  
Subarachnoid hemorrhage    Subclavian steal syndrome  
Subdural effusion    Substantia nigra    Sural nerve  
Sympathectomy    Syringomyelia

Temporal lobe    Teratoid tumor    Thalamus    Thoracic nerves  
Tibial nerve    Torticollis    Trigeminal nerve    Trigeminal neuralgia  
Trochlear nerve    Trypanosomiasis, African  
Trypanosomiasis, South American    Tuberculoma  
Tuberculosis, meningeal    Tuberosus sclerosis

Ulnar nerve

Vagus nerve    Ventriculography    Vertebral artery  
Vestibular nerve
