

Key Words Index (From vol. 44 no. 1 to vol.44 no.12, 2016)

[Number]

1p/19q (1p19q) • 185,625

[A]

abdominal anatomy • 305
 abnormal vessels • 311
 abusive head trauma • 815
 accessory anterior cerebral artery • 103
 acute cerebrovascular syndrome • 835
 acute stroke • 359
 acute subdural hematoma • 517,537,545
 advanced periodontitis • 685
 ALS • 1001
 anesthesia • 591
 aneurysm (s)
 a. surgery • 283
 a., anterior communicating artery • 323
 a., cerebral • 567,651,785
 a., dissecting • 53,583
 a., distal anterior cerebral artery • 103
 a., distal middle cerebral artery • 951
 a., fusiform • 227
 a., internal carotid artery dissecting • 39
 a., internal carotid-posterior communicating artery • 517
 a., intracranial • 121
 a., ipsilateral internal carotid artery • 785
 a., peripheral cerebral • 311
 a., ruptured • 323
 a., ruptured cerebral • 959
 a., vertebral artery dissecting • 575
 aneurysmal subarachnoid hemorrhage • 661
 anterior communicating artery • 233
 a. aneurysm • 323
 anterior median septum • 19
 anterior spinal artery • 575
 anticoagulation • 869
 aphasia • 959
 apixaban • 239
 aplastic MCA • 143
 approach
 a., carotid ultrasonography-guided endovascular • 489
 a., endoscopic endonasal • 47
 a., transbrachial • 561
 a., transcortical • 1069
 aqueduct stenosis • 761
 arterial dissection • 965
 arteriovenous fistula • 857

 a., traumatic vertebral • 135
 ARUBA • 269
 astrocytic tumors • 71
 atypical teratoid/rhabdoid tumor • 335
 auto-regulation • 211

[B]

Behçet's disease • 39
 bilateral lesions • 1033
 BRAF • 245
 brain abscess • 59
 Brain cylinder • 735
 branching angle • 959
 breast cancer • 371
 bypass • 843,951

[C]

C2 fracture • 135
 calvarium • 397
 cancer • 211,881
 carotid artery stenting • 31,561
 carotid endarterectomy • 31,591,869
 carotid free-floating thrombus • 489
 carotid intraluminal thrombus • 869
 carotid stenosis • 31,591
 carotid ultrasonography-guided endovascular approach • 489
 cavernous angioma • 149
 central nervous system (CNS)
 c. lymphoma • 391
 c. PNET • 335
 central neurocytoma • 245
 cerebellopontine angle • 1033
 cerebral aneurysm • 567,651,785
 cerebral arteriovenous malformation (AVM) • 269,1045
 cerebral infarction • 233,1001
 cerebral phaeohyphomycosis • 59
 cerebrospinal fluid (CSF)
 c. malabsorption • 1039
 c. motion • 909
 c. pathway obstruction • 1039
 c. protein • 1039
 c. shunt complications • 305
 spinal CSF leakage • 925
 spontaneous CSF leak • 767
 cervical • 1025
 c. spinal cord • 685
 c. spondylosis • 767
 c. spondylotic myelopathy • 1059

charged particle radiation therapy	• 449
chemotherapy	• 415
chronic subdural hematoma	• 767
chronic traumatic encephalopathy	• 537
clinical evidence	• 359
clinical trial	• 71, 161
clipping	• 661
clivus	• 975
CNS PNET	• 335
coil embolization	• 227, 323, 377, 567, 661
computer model	• 599
concussion	• 537
consciousness impairment	• 377
continuous EEG monitoring (cEEG)	• 5
convexal subarachnoid hemorrhage	• 239
coronary spasm	• 591
cranioplasty	• 755
craniotomy	• 111
CSF malabsorption	• 1039
CSF motion	• 909
CSF pathway obstruction	• 1039
CSF shunt complications	• 305
CT myelogram	• 767
cyst formation	• 1045

[D]

D-dimer	• 1019
decompressive craniectomy	• 755
deep venous thrombosis	• 1019
dematiaceous fungi	• 59
depressed skull fracture	• 599
dermoid cyst	• 863
diabetes insipidus	• 371
diabetes mellitus	• 297
diaphragm	• 129
DICOM file	• 403
differential diagnosis	• 297
diffuse large B-cell lymphoma	• 779
diffusion tensor tractography	• 1069
dissecting aneurysm (s)	• 53, 583
d., internal carotid artery	• 39
d., vertebral artery	• 575
dissection	• 233
d., arterial	• 965
dissemination	• 221
distal anterior cerebral artery aneurysm	• 103
distal middle cerebral artery aneurysm	• 951
distribution	• 1025
dumbbell	• 495
duplicated middle cerebral artery (DMCA)	• 959
dural arteriovenous fistula	• 935
d., intracranial	• 773

[E]

early stage	• 945
edaravone	• 1001
embolization	• 555
Embosphere	• 555
embryonal tumors	• 335
emergency clipping	• 651

endonasal	• 975
endoscopic	• 455, 975
e. endonasal approach/surgery	• 47, 1009
e. sinus surgery	• 47
e. surgery	• 779
e. third ventriculostomy	• 761
e. transsphenoidal surgery	• 473
endoscopically and radiographically visible scale	• 735
endothelial progenitor cells	• 1045
endovascular coil embolization	• 785
endovascular stroke treatment	• 501
endovascular therapy	• 359
endovascular treatment	• 575, 857
entrapment neuropathy	• 155, 297
epidural blood patch	• 925
epidural fluid collection	• 925
epilepsy	• 211
extendable cord	• 111
extracellular fluid	• 909

[F]

fibromuscular dysplasia	• 583
free radical scavenger	• 1001
fusiform aneurysm	• 227

[G]

gadolinium-enhancement	• 945
ganglioglioma	• 245
gastrectomy	• 59
genetics	• 71, 161
genome	• 415
glioblastoma multiforme	• 945
glioma	• 71, 161, 185
glioneuronal tumor	• 245

[H]

head injury	• 545
headache	• 755, 767
heavy ion beam	• 449
hemorrhage	• 121, 843
hemorrhagic onset	• 463
hemorrhagic stroke	• 1019
hemostasis	• 19
high-dose methotrexate	• 605
hydrocephalus	• 507, 761, 1039
hydrogel coil	• 857
hyoid bone	• 835
hypogammaglobulinemia	• 59

[I]

iatrogenic vertebral artery injury	• 857
IDH	• 625
IgG4-related disease	• 47
image guided surgery	• 1069
immunotherapy	• 881
impaired consciousness	• 5
indocyanine green	• 951
inferior phrenic artery	• 773
in-hospital rule	• 31
inner table	• 599

interactive computer graphics	• 403	m., twig-like	• 143, 463
intercostal artery to pulmonary artery fistula	• 773	distal MCA aneurysm	• 951
interhemispheric space	• 517	STA-MCA anastomosis	• 311
internal carotid artery	• 835, 869	STA-MCA bypass	• 121
i. dissecting aneurysms	• 39	STA-/OA-MCA double anastomoses	• 463
i. occlusion	• 785	minimally invasive surgery	• 455, 747
internal carotid-posterior communicating artery aneurysm	• 517	molecular classification	• 185
internal mammary to pulmonary artery fistula	• 773	molecular diagnosis	• 625
internal trapping	• 135	molecular genetics	• 415
intracranial aneurysm	• 121	molecular pathway	• 71, 161
intracranial dural arteriovenous fistula	• 773	motor evoked potential	• 283
intracranial hemorrhage	• 143	moyamoya disease	• 311, 823, 843
intracranial hypotension	• 507, 767, 925	myelomeningocele	• 723
intramedullary abscess	• 685	myelopathy	• 1025
intramedullary spinal cord tumor	• 19	[N]	
intraoperative monitoring	• 283	natural reposition	• 835
intraoperative use	• 403	neck clipping	• 121, 959
intraosseous bone tumor	• 397	neck pain	• 319
intraventricular tumor	• 1069	necrosis	• 555
ipsilateral internal carotid artery aneurysm	• 785	neuroendoscopic biopsy	• 851
ischemic stroke	• 501	neuroendoscopy	• 747
[J]		neurofibromatosis type 1/type 2	• 699
juvenile cerebral vascular disease	• 965	neurovascular unit	• 1001
[L]		nonconvulsive status epilepticus (NCSE)	• 5
late-onset bleeding	• 823	nonfunctioning pituitary adenoma	• 779
lateral ventricle	• 1069	noninvasively	• 951
leptomeningeal carcinomatosis	• 371	non-vitamin K antagonist oral anticoagulants	• 239
less invasive	• 561	numbness	• 297
i. surgery	• 203	[O]	
<i>Listeria</i> meningitis	• 761	oculomotor palsy	• 473
long-term outcome	• 823	olfaction	• 1009
low back pain	• 155	oligodendroglial tumors	• 161
low-dose radiation	• 851	oncogene	• 793
lumbar disc herniation	• 203	orbital fracture	• 115
lumboperitoneal shunt	• 129	organizing chronic subdural hematoma	• 747
[M]		osteoporosis	• 637
magnetic navigation	• 473	otorrhea	• 1053
magnetic resonance imaging (MRI)	• 211, 761, 863, 909	outcome	• 723
m., perfusion	• 755	[P]	
malignancy	• 415, 481	pain and numbness	• 1025
malignant peripheral nerve sheath tumor	• 691, 699	parent artery occlusion	• 53
MCA occlusion	• 143	penetrating brain injury	• 115
MCA stenosis	• 311	Penumbra system	• 501
mechanical thrombectomy	• 501	percutaneous endoscopic discectomy	• 203
Meckel's cave	• 863	percutaneous transluminal angioplasty	• 383
medulloblastoma	• 335	perfusion MRI	• 755
meningioma	• 391, 415, 555, 1039	peripheral cerebral aneurysm	• 311
meningitis	• 1053	peripheral nerve	• 297
metastasis	• 221, 1033	peritoneal catheter migration	• 129
metastatic brain tumor	• 221	periventricular anastomosis	• 823
microsurgical anatomy	• 19	personalized treatment	• 185
middle cerebral artery (MCA)		pineal parenchymal tumor	• 481
m. occlusion	• 143	pituitary adenoma	• 473, 793
m. stenosis	• 311	pituitary metastasis	• 371
m., aplastic	• 143	pituitary tumor	• 779
m., duplicated (DMCA)	• 959	pleomorphism	• 481
		polyarteritis nodosa	• 661

post-concussion syndrome	• 537	s. base surgery	• 391
posterior cerebral artery	• 227	snowboarding	• 545
posterior fossa	• 517	spinal CSF leakage	• 925
posterior reversible encephalopathy syndrome (PRES)	• 211, 507	spinal epidural hematoma	• 319, 669
P., RPLS/	• 377	spinal lipoma	• 495
pre-operative embolization	• 555	spine	• 691
primary central nervous system lymphoma	• 605	spontaneous cerebrospinal fluid leak	• 767
primary pituitary lymphoma	• 779	sports	• 537
progressing stroke	• 383	STA-MCA anastomosis	• 311
progressive cerebral infarction	• 843	STA-MCA bypass	• 121
proliferative potential	• 481	STA-/OA-MCA double anastomoses	• 463
proton beam	• 449	standard of care	• 185
protrusion	• 567	stent	• 227
proximal protection	• 561	stent-assisted coil embolization	• 39
pseudoaneurysm	• 323	stereotactic craniotomy	• 149
pseudotumor cerebri	• 935	stereotactic radiation	• 881
[Q]		stereotactic radiosurgery	• 1045
quality of life (QOL)	• 723	sterile package	• 403
[R]		stress	• 599
radiation	• 371	subacute combined degeneration	• 1059
r., low-dose	• 851	subarachnoid hemorrhage	• 53, 233, 323, 575, 583, 651, 951
r., stereotactic	• 881	subdural hematoma	• 455, 815
r., whole brain	• 881	subdural-peritoneal shunt	• 815
radiation therapy	• 605	suction	• 111
r., charged particle	• 449	superior cerebellar artery	• 53
radiation-induced	• 691	superior cluneal nerve	• 155
radiculopathy	• 1025	supracallosal portion	• 103
radiotherapy	• 449	suprasellar germinoma	• 851
randomized controlled trial	• 359	surgery	• 155, 221, 881, 1053
rapid progression	• 945	s., aneurysm	• 283
rapid prototyping	• 651	s., endoscopic	• 779
rectus sheath hematoma	• 305	s., endoscopic endonasal	• 1009
recurrence	• 1045	s., endoscopic sinus	• 47
recurrent hiccups	• 129	s., endoscopic transsphenoidal	• 473
rescue flap	• 1009	s., image guided	• 1069
resection	• 221	s., less invasive	• 203
retinal hemorrhage	• 815	s., minimally invasive	• 455, 747
retroclival space	• 517	s., revascularization	• 823
revascularization surgery	• 823	s., skull base	• 391
reversible cerebral vasoconstriction syndrome	• 965	[T]	
risk	• 269	tablet-type device	• 403
RPLS/ PRES	• 377	takotsubo cardiomyopathy	• 661
ruptured aneurysm	• 323	targeted therapy	• 881
ruptured cerebral aneurysm	• 959	temporal fascial flap	• 115
[S]		temporal muscular flap	• 115
satisfaction	• 723	tethering	• 495
schwannoma	• 397, 699	therapeutic management	• 669
sella	• 975	thoracolumbar spine	• 637
septal sleeve	• 19	three dimensional-computed tomography angiography	• 835
shaken baby syndrome	• 815	three-dimensional printing	• 651
shunt complication	• 507	thrombectomy	• 359
sinking skin flap syndrome	• 755	t., mechanical	• 501
sinonasal function	• 1009	toxicity of contrast medium	• 377
sinusitis	• 47	transbrachial approach	• 561
skull	• 397	transcortical approach	• 1069
s. base	• 975	transcription factor	• 793
		transient hemiplegia	• 319
		transient ischemic attack	• 143
		traumatic vertebral arteriovenous fistula	• 135

treatment	• 269, 723
t. algorithm	• 669
trigeminal neuralgia	• 863
Trousseau syndrome	• 501
tuberculoma	• 679
tumbling	• 111
tumor (s)	
t. suppressor gene	• 793
t., astrocytic	• 71
t., atypical teratoid/rhabdoid	• 335
t., embryonal	• 335
t., glioneuronal	• 245
t., intramedullary spinal cord	• 19
t., intraosseous bone	• 397
t., intraventricular	• 1069
t., malignant peripheral nerve sheath	• 691, 699
t., metastatic brain	• 221
t., oligodendroglial	• 161
t., pineal parenchymal	• 481
t., pituitary	• 779
twig-like MCA	• 143, 463
[U]	
unilateral	• 507
u. moyamoya disease	• 121
unruptured	• 269
[V]	
vertebral artery	• 135, 583
v. dissecting aneurysm	• 575
v. stenosis	• 383
vertebral fracture	• 637
visual acuity	• 935
visual disturbance	• 679
vitamin B12 deficiency	• 1059
vulnerable plaque	• 561
[W]	
WHO classification	• 625
whole brain radiation	• 881
