

Special issue : What is known in autoimmune diseases

IntroductionNobuyuki Miyasaka...1044

Review

1. AutoimmunityKazuyoshi Ishigaki, et al...1046
2. Innate immunityMasanaka Sugiyama, et al...1055
3. Adaptive immunitySachiko Miyake...1064
4. Disease susceptibility genes for autoimmune diseases.....Yuta Kochi...1074
5. Dendritic cell subsets and its role in immunity and toleranceKazutomo Suzue...1081
6. Cytokine networkTaiga Tamiya, et al...1090
7. The role of regulatory T cells in health and diseaseJunko Nishio...1099
8. Omics : Contribution to clinical medicine through systems biologyTsutomu Nobori...1113

Article

1. Methods and clinical significance of autoantibodiesTsuneyo Mimori...1121
2. Complement in autoimmune diseases : its role in diseases
and significance as a biomarkerHideharu Sekine...1127
3. Connective tissue diseases and related disorders
 - 1) Systemic lupus erythematosusYoshinari Takasaki...1135
 - 2) New paradigm of diagnosis and treatment
of rheumatoid arthritis.....Yoshiya Tanaka...1142
 - 3) Polymyositis/Dermatomyositis.....Hitoshi Kohsaka...1150
 - 4) Systemic sclerosisYasushi Kawaguchi...1156
 - 5) Vasculitis syndromes.....Shoichi Ozaki...1164
 - 6) MCTD ; Mixed connective tissue diseaseMasao Katayama, et al...1172
 - 7) Sjögren's syndromeTakayuki Sumida...1179
 - 8) Adult onset Still's diseaseKohei Nagasawa...1186
 - 9) Antiphospholipid syndromeTatsuya Atsumi...1193
 - 10) Current topics in polymyalgia rheumaticaTomohiro Koga, et al...1200
4. Other autoimmune diseases
 - 1) Autoimmune hemolytic anemiaMasami Bessho...1206
 - 2) Pathophysiology of immune thrombocytopenia.....Masataka Kuwana...1212

3) Thrombotic thrombocytopenic purpura	<i>Yusuke Yamaguchi, et al</i> ···	1220
4) Paroxysmal nocturnal hemoglobinuria	<i>Keiya Ozawa</i> ···	1228
5) Myasthenia gravis	<i>Kazuo Iwasa, et al</i> ···	1234
6) The differential pathogenesis of multiple sclerosis and neuromyelitis optica	<i>Norio Chihara, et al</i> ···	1241
7) Recent advance in pathogenesis of Guillain-Barré syndrome	<i>Tomoko Komagamine, et al</i> ···	1249
8) Crohn's disease and ulcerative colitis	<i>Masahiro Suzuki, et al</i> ···	1258
9) Primary biliary cirrhosis and primary sclerosing cholangitis	<i>Nobuaki Azemoto, et al</i> ···	1265
10) Autoimmune thyroid diseases : Hashimoto's thyroiditis and Graves' disease	<i>Nobuyuki Takasu</i> ···	1272
11) Type 1 diabetes	<i>Fumitaka Haseda, et al</i> ···	1280
12) Nephrotic syndrome	<i>Yoshio Shimizu, et al</i> ···	1288
13) IgA nephropathy	<i>Mitsuyo Itabashi, et al</i> ···	1297
14) Autoimmune myocarditis	<i>Masanori Konishi, et al</i> ···	1303
15) Pathogenesis and treatment of Goodpasture syndrome	<i>Toshinori Takada, et al</i> ···	1312
16) Autoimmune bullous diseases	<i>Jun Yamagami, et al</i> ···	1318
17) IgG4-related disease	<i>Hisanori Umehara</i> ···	1327
5 . Benefit and risk of glucocorticoid therapy	<i>Shinichi Kawai</i> ···	1333
6 . Immunosuppressive drugs in the treatment of autoimmune diseases	<i>Tohru Akahoshi, et al</i> ···	1343
7 . Advantage and disadvantage of biologics for rheumatic diseases	<i>Kenji Nagasaka, et al</i> ···	1349

Topics

1. Autoinflammatory diseases : aberrant inflammatory responses caused by mutated components in innate immunity	<i>Tetsuo Kubota, et al</i> ···	1359
2. Can genome-testing become diagnosis tool?	<i>Ryo Yamada</i> ···	1362
3. Impact of smoking for developing anti-CCP antibodies	<i>Shunichi Kumagai, et al</i> ···	1364
4. Masked infection in patients with rheumatoid arthritis during tocilizumab treatment	<i>Kunihiko Umekita, et al</i> ···	1367
