

Special Issue : Advanced medical apparatus and endoscopic surgery

- Latest development to therapeutic device for flexible endoscopy : application
to NOTESKeiichi IKEDA, et al ● 687
- The OsiriX navigation in endoscopic surgery and NOTES : usefulness
of wireless motion sensing for flattery support navigation and image
overlay surgeryMaki SUGIMOTO, et al ● 693
- Development and clinical application of augmented reality navigation system
for laparoscopic surgeryKozo Konishi, et al ● 703
- Usefulness of secure visual field in NOTES by a wireless CCD micro-camera
.....Takeshi OHDAIRA, et al ● 711
- Newly designed mechanical manual manipulator-Radius Surgical System-for
endoscopic surgeryNoriyuki INAKI ● 723
- Research and development of combined master-slave manipulator and haptic
forcepsSoji OZAWA, et al ● 729
- Non-contact stiffness sensor for laparoscopic surgeryTomohiro KAWAHARA, et al ● 735
- A new HIFU model CZ 901 and future application to endoscopic surgeryAkira ITABASHI ● 743

Original Article

- Laparoscopic deroofing of non-parasitic liver cystsMitsunobu IMASATO, et al ● 751
- Risk management during laparoscopic surgery : the use of InsulScan®
.....Noriaki KAMEYAMA, et al ● 757

Case Report

- A report of two extremely elderly cases of esophageal hiatal hernia successfully
treated by laparoscopic surgeryTeijiro HIRASHITA, et al ● 763
- A case of post operative diaphragmatic hernia after a catamenial pneumothorax
repair treated successfully by laparoscopic surgeryNobuhiko OKAMOTO, et al ● 769
- Successful extraction of a giant foreign body in the rectum using
laparoscopy-assisted surgery : a case reportKen YANAGI, et al ● 775

Operative Technique

- Laparoscopic incisional hernia repairHiroshi HARADA, et al ● 783
