

Original Article

- Clinical experience of full thickness resection of early gastric cancer with
severe scar : CLEAN-NET (Combination of Laparoscopic and Endoscopic
Approaches to Neoplasia with Non Exposure Technique).....Hironari SHIWAKU, et al ● 291
- The significance of staging laparoscopy for highly advanced
type 4 gastric cancerWataru SAKAMOTO, et al ● 299

Case Report

- Laparoscopic splenectomy for the differential diagnosis of multiple nodules
of the spleen : a case reportKohta IGUCHI, et al ● 305
- Petersen's hernia after laparoscopy-assisted distal gastrectomy with antecolic
Roux-en Y reconstruction.....Yumi HINO, et al ● 313
- A case of primary hyperparathyroidism in which ^{99m}Tc-MIBI
scintigram failed to detect a parathyroid tumor but a complete
resection was passible by video-assisted neck surgery accompanied
by intraoperative quick PTH assayHideki YAMAMOTO, et al ● 317
- Laparoscopic full thickness partial duodenectomy for primary early
duodenal cancer with duodenoscopic intervention : a case report
.....Hiromitsu IWAMOTO, et al ● 323
- Type 0-I early gastric cancer prolapsed into the duodenal bulb : treatment
by laparoscopy-assisted distal gastrectomyNaoki AOMATSU, et al ● 329
- Mucinous cystadenocarcinoma of the appendix resected by
laparoscopy-assisted colectomy.....Tsutomu KAWAGUCHI, et al ● 337
- A case of rectal GIST successfully treated by transanal local resection and
recto-anal anastomosis following laparoscopic rectal dissectionKeiko YAMAKAWA, et al ● 343
- A case of anaphylactic shock caused by a latex surgical glove during
laparoscopic appendectomyTakumi MIURA, et al ● 349
- Laparoscopic excision of a giant abdominoscrotal hydrocele (ASH) with
femoral vein occlusion : a case reportKomei SUZUKI, et al ● 355

Operative Technique

- The improvement in laparoscopy-assisted distal gastrectomy and Billroth-I reconstruction by
using the umbilical incisionNaotaka MURAKAMI, et al ● 361

Devices for Surgical Procedure

- Operative procedure of laparoscopic proximal gastrectomy after
prior transection of the stomachMasashi TAKEMURA, et al ● 369
- Development of an access instrument for single-incision laparoscopic
surgeryTsuyoshi TAKAGI, et al ● 375

Short Report

- An insertion method of ports with extra care for coaxial set-up using single
port laparoscopic surgeryHidenori FUJII, et al ● 381
