

Original Article

- Evaluation of laparoscopic trans-abdominal preperitoneal repair for
recurrent inguinal herniaYoshihiro MURAKAMI, et al ● 551

Case Report

- Laparoscopically resected appendiceal intussusception caused by
adenomaOsamu OKOCHI, et al ● 559
- Combined laparoscopic total gastrectomy and ileocecal resection for
synchronous gastric and colon cancerYoshihiko KONO, et al ● 565
- Single port laparoscopic cholecystectomy for patient with right-sided round
ligament/left-sided gallbladder : a case reportToru KUSANO, et al ● 569
- A case of liver cyst with biliary communication successfully treated
with single incision laparoscopic deroofingKoji MATSUMOTO, et al ● 575
- A case of intussusception of an intramucosal jejunum cancer treated
by single incision laparoscopic surgeryMasaki WAKASUGI, et al ● 581
- A case report of a retroperitoneal schwannoma resected by laparoscopic
surgeryKazuo TO, et al ● 587
- Strangulated ileus due to a knot-forming Meckel's diverticulum
treated with a laparoscopic associated surgery : a case reportHiroshi OKUMURA, et al ● 595
- Usefulness of laparoscopy for the diagnosis of actinomycosis of the
omentum caused by silent fishbone perforationSeiichi KAWASAKI, et al ● 601
- Simultaneous resection of colon cancer and synchronous liver metastasis
under complete laparoscopic surgery using the same 4 ports : A case
reportKazuteru MONDEN, et al ● 607
- Necrosis of gastric remnant following laparoscopic assisted distal
gastrectomy : a case reportTsuyoshi TAKAHASHI, et al ● 613
- A case of repeated internal hernia after Roux-en-Y reconstruction following
laparoscopic distal gastrectomyTomohiro OSAKI, et al ● 619
- Operative Technique**
- A technique for laparoscopic choledocholithotomy in a single attempt
for patients with a previous cholecystectomy : through the use of a
bile duct endoscopic plastic stent tubeRyouta MURAYAMA, et al ● 625
- Hand-sewn Billroth I anastomosis in laparoscopy-assisted distal gastrectomy
for gastric cancerIsao NOZAKI, et al ● 631
- New method of gastric tube reconstruction using no-knife linear
stapler after proximal gastrectomyFumihiro YOSHIMURA, et al ● 637
