

Case Report

- Laparoscopic intersphincteric resection for advanced rectal cancer
extending to the anal canal : an effective case treated by preoperative
chemo-radiationtherapy using S-1 for preserving the anusHiroyuki SHIOKAWA, et al ● 671
- Delayed bile leakage due to pressure necrosis of the common bile duct by
a clip after laparoscopic cholecystectomyMasashi ZUGUCHI, et al ● 679
- Single-incision laparoscopic cholecystectomy for a morbid obese patient
with arachnoid cyst-peritoneal shuntTakashi IKEBE, et al ● 683
- Emphysematous cholecystitis treated by laparoscopic cholecystectomy
for geriatric patientHiroki OTANI, et al ● 691
- Laparoscopy assisted distal gastrectomy for incarcerated
gastrointestinal stromal tumor into duodenal capRyosuke SHIBATA, et al ● 697
- Laparoscopical resection of Castleman's disease originating from
the mesentery properTakahide KAWASAKI, et al ● 703
- Internal hernia through the mesenteric opening rimmed with the
mesocolon and the preserved inferior mesenteric artery after
laparoscopic-assisted left colectomy : report of a caseTatsunosuke ICHIMURA, et al ● 709
- A case of omental cyst with diagnosed preoperatively and resected
laparoscopicallyShinichiro YOKOTA, et al ● 715
- Successful treatment of corrosive esophagitis, pharyngo-laryngitis and
gastritis caused by dilute hydrochloric acid : a case report
(Video assisted thoracoscopic esophagectomy)Kuniyuki KATO, et al ● 721
- A case of superior lumbar hernia repaired by laparoscopic surgeryKeisuke TOGUCHI, et al ● 727
- A case of laparoscopic surgery for rectal perforation by a transanal foreign
bodyTakafumi YUBA, et al ● 733
- A case of primary torsion of the greater omentumToshiki WAKABAYASHI, et al ● 739
- A case of strangulated obstruction in gestational patients without prior
surgery.....Manabu NISHIE, et al ● 745

Devices for Surgical Procedure

- An improved patient immobilization method for laparoscopic surgery
using a double magic-bedNorihide AMASHIRO, et al ● 751

Operative Technique

- Single-incision laparoscopic cholecystectomy with abdominal
wall lifting using two barsTakumi SHIUMOMATSUYA, et al ● 757
