

**Original Article**

- Questionnaire survey to evaluate long-term outcomes after inguinal  
hernia repair : Comparison of prognosis of endoscopic vs. open  
inguinal hernia repair .....Ikue NONOGAKI et al ● 247
- Current status of laparoscopic gastrectomy for elderly patients with gastric  
cancer in Kanagawa prefecture .....Sho SATO et al ● 254
- Laparoscopic sleeve gastrectomy with duodenojejunal bypass can be  
performed safely in a secondary health care center that has no  
intensive care unit but has a dedicated service .....Yosuke SEKI et al ● 263

**Review Article**

- Trends and perspectives for perioperative antithrombotic  
management in endoscopic surgery : Review of studies presented at  
the Annual Meeting of the Japan Society for Endoscopic  
Surgery .....Takahisa FUJIKAWA ● 273

**Case Report**

- A case of abdominal incisional hernia in the groin caused by  
incisional approach for endovascular aortic repair .....Nobuhito KUBOTA et al ● 280
- Laparoscopic duodenojejunostomy for superior mesenteric artery  
syndrome with scoliosis : A case report .....Masakazu FUJII et al ● 286
- A case of thoracoscopic enucleation of large leiomyoma involving the  
entire esophageal surface .....Shinya BANNO et al ● 294
- A case of median arcuate ligament resection with laparoscopic  
ultrasound for the stenosis of the celiac artery caused by  
median arcuate ligament compression .....Yasuhiro HASHIMOTO et al ● 301
- A case of port site recurrence after thoracoscopic subtotal  
esophagectomy for middle thoracic superficial esophageal  
cancer .....Yasuhiro KURUMIYA et al ● 309
- A case of hyaline-vascular-type Castleman's disease resected by  
complete thoracoscopic surgery .....Hiroyasu MATSUOKA et al ● 316
- A case of gastrointestinal stromal tumor near the anterior aspect of  
the gastric cardia treated with robot-assisted percutaneous  
endoscopic intragastric surgery .....Kazumitsu SUZUKI et al ● 324

**Operative Technique**

- Surgical technique of laparoscopic-assisted peritoneal shunt insertion  
for ventriculoperitoneal shunt surgery in children .....Takanori OYAMA et al ● 332
