

Case Report

- A case of transabdominal preperitoneal repair of obturator bladder
hernia diagnosed with prone position computed tomography Yuta KUHARA et al ● 335
- A case of laparoscopic partial splenectomy for a splenic
metastasis of thymoma Masumi KAWASHIMA et al ● 340
- Three cases of recurrent intussusception prophylactically
treated by laparoscopic appendectomy and ileocolopexy Kosuke ENDO et al ● 346
- A case of uterine-sigmoid colon fistula cured by laparoscopic
sigmoidectomy Norikazu YAMADA et al ● 352
- A case of extra-anal prolapse of sigmoid colon carcinoma resected radically and anastomosed
without reduction by laparoscopic surgery Toshiaki TOSHIMA et al ● 357
- A case of 8 mm port site hernia after robot-assisted laparoscopic
low anterior resection Atsushi HIROSE et al ● 362
- A case of parastomal hernia treated by laparoscopic
Sandwich plus method Tomoki KUSAFUKA et al ● 368
- Thoracoscopic left S³bc subsegmentectomy with adequate surgical margins
by using inter-segmental veins as landmarks Hirohisa KATO et al ● 374

Devices for Surgical Procedure

- How to safely resect T4b colorectal cancer with
laparoscopic surgery Masayasu KAWASAKI et al ● 381

Video Articles

- Robot-assisted adrenalectomy preceded by hepatic mobilization for a 10 cm right adrenal tumor
under reverse Trendelenburg supine position Fumitaka SHIMIZU et al ● 388
- Splenic flexure mobilization by transverse colon mesenteric
penetration approach Toshiyuki ADACHI et al ● 390
- Key points of surgical techniques for No. 6 and No. 8a lymph node
dissection in laparoscopic distal gastrectomy Kyota TAKAHASHI et al ● 392
