| 401 | Anisometric cell lipoma/dysplastic lipoma in a patient with hereditary retinoblastoma    | <i>H. Kawashima et al.</i> |
| 405 | Spindle cell lipoma in the forearm                                                       | <i>T. Ito et al.</i>       |
| 409 | Myxoid liposarcoma of lower leg in an adolescent                                         | <i>S. Yamamuro et al.</i>  |
| 413 | Undifferentiated sarcoma causing lung metastasis 4 months after the initial consultation | <i>S. Furusho et al.</i>   |
| 417 | Pleomorphic dermal sarcoma treated with eribulin                                         | <i>Y. Fujiwara et al.</i>  |
| 421 | Giant angiofibrosarcoma of the vulva difficult to diagnose                               | <i>A. Yokoyama et al.</i>  |
| 425 | Summary of 118 hospitalized patients with phlegmone                                      | <i>J. Kawaguchi et al.</i> |

### CASE REPORTS

- |     |                                                                                                                                                          |                            |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
| 433 | Two cases of atopic dermatitis with suspected relevance to dog allergy                                                                                   | <i>A. Ariyoshi et al.</i>  |
| 438 | Atopic dermatitis treated with dupilumab in a patient with lung cancer                                                                                   | <i>S. Matsumoto et al.</i> |
| 442 | Anaphylactic shock due to the use of hydroxyethyl starch during cesarean section                                                                         | <i>A. Sato et al.</i>      |
| 447 | Livedoid vasculopathy with decreased protein C and protein S levels                                                                                      | <i>Y. Hamamura et al.</i>  |
| 451 | Photosensitivity reaction caused by vandetanib                                                                                                           | <i>M. Iwata et al.</i>     |
| 455 | Hailey-Hailey disease relieved by apremilast                                                                                                             | <i>Y. Noda et al.</i>      |
| 459 | Granuloma annulare treated with narrowband UVB therapy and doxycycline                                                                                   | <i>M. Tanaka et al.</i>    |
| 463 | Epidermal cyst of the right dorsal foot arising from plantar wart                                                                                        | <i>K. Tamakoshi et al.</i> |
| 467 | Two cases of giant calcifying epithelioma                                                                                                                | <i>H. Morita et al.</i>    |
| 471 | Tufted hemangioma complicated by thrombocytopenia due to transient myeloid hyperplasia that had to be distinguished from the Kasabach-Merritt phenomenon | <i>Y. Osuji et al.</i>     |
| 475 | Immune-related adverse events of polyarthritis in a patient receiving nivolumab for malignant melanoma                                                   | <i>A. Terao et al.</i>     |
| 479 | Cutaneous nontuberculous mycobacterium infection caused by <i>Mycobacterium mageritense</i> at the site of insulin injection                             | <i>M. Wada et al.</i>      |
| 483 | Subcutaneous sparganosis mansoni in a Japanese patient                                                                                                   | <i>R. Minakuchi et al.</i> |
| 487 | Umbilical polyp with colonic epithelium                                                                                                                  | <i>M. Terazaki et al.</i>  |

### MINI REPORT

- |     |                                                                                                                |                         |
|-----|----------------------------------------------------------------------------------------------------------------|-------------------------|
| 494 | Erythrodermic psoriasis accompanied by multiple lesions of Bowen's disease arising on the non-sun-exposed skin | <i>M. Honma et al.</i>  |
| 496 | Breast cancer causing skin metastasis 40 years after surgery                                                   | <i>E. Kasai et al.</i>  |
| 498 | Scabies in a neonate                                                                                           | <i>M. Sekine et al.</i> |
