

ENDOSCOPIA DIGESTIVA

Volume 35, Number 6, June 2023

CONTENTS

Special Issue

Endoscopic Diagnosis and Treatment of Superficial Non-Ampullary Duodenal Epithelial Tumor (SNADET)

Introductory remarks

Endoscopic management of duodenal tumors: The path we have followed *Michio Tanaka* 704

Epidemiology of SNADETs—treatment for diminutive SNADETs

based on the epidemiology *Kenichi Goda et al.* 706

Pathological characteristics of superficial non-ampullary duodenal epithelial tumors

and tumor-like lesions *Ryoji Kushima* 713

Treatment strategy and its implementation for SNADETs

Nobutsugu Abe et al. 722

I . Diagnosis

How not to overlook SNADET during screening EGD *Takanori Matsui et al.* 728

The evaluation of SNADET with magnifying image-enhanced endoscopy *Atsushi Nakayama et al.* 734

【Topics】 Endocytoscopic observation of SNADET *Youichi Kumagai et al.* 740

【Topics】 Pros and cons on taking biopsy from SNADET *Satoshi Kinoshita et al.* 743

II . Lesions that should be distinguished from SNADET

Duodenal gastric heterotopia *Takashi Kawai et al.* 746

Duodenal gastric metaplasia *Hiroyuki Imaeda et al.* 748

Brunner's gland hyperplasia *Mitsuru Kaise et al.* 750

Duodenal adenocarcinoma associated with Brunner's gland *Tomoya Ueda et al.* 752

Duodenal neuroendocrine tumor *Tomoya Ueda et al.* 754

Duodenal lymphoma *Hiroshi Kashida* 756

Duodenal lymphangioma *Hiroyuki Imaeda et al.* 758

III . Treatment

Endoscopic treatment strategies depending on the situation of the lesions

(based on the results of a multicenter research including 3,000 duodenal tumors) *Motohiko Kato et al.* 760

Indications and tips for duodenal cold snare polypectomy *Kohei Takizawa* 766

【Topics】 CSP for multiple duodenal adenomas in patients with FAP *Kenta Hamada et al.* 772

Indications for duodenal EMR and tips for avoiding incomplete resection *Yutaka Mitsunaga et al.* 775

Indications for UEMR and tips for performing it *Yasushi Yamasaki* 782

Tips for duodenal ESD		
Pocket-creation method	<i>Yoshimasa Miura et al.</i>	787
Water pressure method	<i>Naohisa Yahagi</i>	793
Traction method	<i>Tomoaki Tashima et al.</i>	800
Current status and clinical outcomes of LECS for duodenal tumor	<i>Shoichi Yoshimizu et al.</i>	807
Prevention and management of complications		
Troubleshooting during duodenal EMR/ESD	<i>Shu Hoteya et al.</i>	814
Efficacy and importance of mucosal defect suturing after duodenal ESD	<i>Akiko Takahashi et al.</i>	824
【Note】 Tips for mucosal defect closure with OTSC	<i>Yohei Minato et al.</i>	830
【Note】 Tips for string clip suturing method	<i>Naohisa Yahagi</i>	834
【Topics】 ENBPD for the management of complications	<i>Seiichiro Fukuhara et al.</i>	837
Surveillance after duodenal endoscopic resection and management		
of residual/recurrent lesions	<i>Satoru Nonaka et al.</i>	840
