Special Issue

Updated Atlas of Duodenal and Small Intestinal Diseases

Introductory remarks

Let's pay attention to duodenal and small intestinal diseases	Hironori Yamamoto	445
---	-------------------	-----

I. Neoplasm and preneoplastic lesion

Macroscopic and microscopic anatomy (histology) of the small intestine	Yumi Asai et al.	446
--	------------------	-----

A. Metaplasia and epithelial tumor

Heterotopic gastric mucosa in the duodenum	Hiroyuki Imaeda et al.	452
Gastric metaplasia in the duodenum	Kentaro Iwata et al.	454
Brunner's gland hyperplasia	Jun Nakamura et al.	456
Superficial non-ampullary duodenal epithelial tumor (SNADET): gastric type	Takeshi Uozumi et al.	458
Superficial non-ampullary duodenal epithelial tumor (SNADET): intestinal type	Tsunetaka Kato et al.	460
Ampullary adenoma	Kazunari Nakahara et al.	462
Ampullary adenocarcinoma	Takahisa Ogawa	464
Duodenal adenocarcinoma: advanced	Daisuke Minezaki et al.	466
Small intestinal adenoma/adenocarcinoma: early	Mitsuru Nagata et al.	468
Small intestinal adenocarcinoma: advanced	Aitoshi Hoshimoto et al.	470
Squamous cell carcinoma	Kazuki Hayashi et al.	472

B. Lymphoproliferative disease

Diffuse large B cell lymphoma	Kazuya Miyaguchi et al.	474
Follicular lymphoma	Yohei Kojima et al.	476
Mantle cell lymphoma	Hiroyuki Okada et al.	478
MALT lymphoma	Masanao Nakamura et al.	480
【Note】 Multiple lymphomatous polyposis	Yoshiaki Shibata et al.	482
【Note】 Immunoproliferative small intestinal disease (IPSID)	Shotaro Nakamura	484
Enteropathy-associated T-cell lymphoma (EATL)	Akihiko Okada et al.	486
Monomorphic epitheliotropic intestinal T-cell lymphoma (MEITL)	Takashi Ando et al.	488
Adult T-cell leukemia/lymphoma (ATL/L)	Tadashi Miike et al.	490
Plasma cell neoplasm (plasmacytoma/plasma cell myeloma)	Katsuyoshi Ando et al.	492

C. Submucosal tumor (SMT)/SMT-like lesion

Ectopic (aberrant) pancreas	Kohei Morioka et al.	494
-----------------------------	----------------------	-----

Cyst	<i>Naomi Kakushima</i>	496
Lymphangioma	<i>Teppei Masunaga et al.</i>	498
Lipoma	<i>Masayoshi Fukuda et al.</i>	500
Hemangioma	<i>Takeshi Yamashina et al.</i>	502
Pyogenic granuloma	<i>Kurato Miyazaki et al.</i>	504
Kaposi sarcoma (HHV-8 related)	<i>Shunsuke Yamamoto et al.</i>	506
Neuroendocrine neoplasm in the non-ampullary duodenum	<i>Minami Hashimoto et al.</i>	508
Neuroendocrine neoplasm in the major and minor papilla	<i>Tamotsu Kuroki et al.</i>	510
Neuroendocrine neoplasm in the jejunum and ileum	<i>Yosho Fukita et al.</i>	512
Gangliocytic paraganglioma	<i>Katsushi Seza et al.</i>	514
Paraganglioma	<i>Tadayuki Takagi et al.</i>	516
Inflammatory fibroid polyp (IFP)	<i>Hironobu Takedomi et al.</i>	518
Leiomyoma/Angioleiomyoma	<i>Masatsune Shibutani et al.</i>	520
Gastrointestinal stromal tumor (GIST)	<i>Mayumi Ide et al.</i>	522
Dilated orifice of the duodenal papilla due to intraductal papillary mucinous neoplasm (IPMN) of the pancreas	<i>Shinsuke Koshita</i>	524
Fistula from intraductal papillary mucinous neoplasm (IPMN) of the pancreas to the duodenum	<i>Shinsuke Koshita</i>	526
Duodenal invasion from pancreatic cancer	<i>Shinsuke Koshita</i>	528
Duodenal involvement (metastasis or direct invasion) from malignancy of other organs	<i>Yoshikazu Tsuzuki et al.</i>	530
Small intestinal metastasis from lung cancer	<i>Yoshikazu Tsuzuki et al.</i>	532
Small intestinal metastasis from malignant melanoma	<i>Takashi Akutagawa et al.</i>	534
D. Gastrointestinal polyposis syndrome and similar polyp		
Ampullary neoplasm associated with familial adenomatous polyposis (FAP)	<i>Yoji Takeuchi et al.</i>	536
Non-papillary duodenal adenoma/cancer associated with familial adenomatous polyposis (FAP)	<i>Yoshika Akimoto et al.</i>	538
Peutz-Jeghers syndrome	<i>Shiko Kuribayashi et al.</i>	540
Peutz-Jeghers type polyp	<i>Kazuo Ohtsuka et al.</i>	542
Juvenile polyposis syndrome	<i>Junji Umeno et al.</i>	544
Juvenile polyp	<i>Yuko Okada et al.</i>	546
Cowden syndrome	<i>Takuto Saiki et al.</i>	548
Cronkhite-Canada syndrome	<i>Naohiko Akimoto et al.</i>	550
Neurofibromatosis 1 (von Recklinghausen disease)	<i>Yoshihiko Kawaguchi et al.</i>	552
II. Inflammatory disease		
A. Infectious disease		
1. Bacterial infection		
Duodenitis/duodenal ulcer due to <i>Helicobacter pylori</i> infection	<i>Takeshi Onda et al.</i>	554

<i>Campylobacter</i> enteritis	Kiyotaka Okawa et al.	556
<i>Yersinia</i> enterocolitis	Yuma Hotta et al.	558
<i>Salmonella</i> enteritis	Kiyotaka Okawa	560
Small intestinal tuberculosis	Jun Omori et al.	562
Duodenitis and enteritis due to non-tuberculosis mycobacteria (NTM)	Atsushi Iraha et al.	564
Whipple's disease	Atsushi Ikeda et al.	566
2. Viral infection		
Cytomegalovirus enteritis	Hiroyuki Imaeda et al.	568
Chronic active Epstein-Barr virus enteritis	Kiyotaka Okawa et al.	570
3. Parasitic and protozoan infection		
Taeniasis (tapeworm infection)	Jumpei Ohkawa et al.	572
Small intestinal anisakiasis	Sumio Iio et al.	574
Strongyloidiasis	Akihito Tanaka et al.	576
Nematodosis	Sakae Mikami	578
Giardiasis	Tetsu Kinjo et al.	580
Cystoisosporiasis	Masashi Ohno et al.	582
B. Autoimmune disease, collagenous disease, vasculitis		
Duodenal lesions in ulcerative colitis	Takashi Hisabe et al.	584
Backwash ileitis	Kiyonori Kobayashi	586
Pouchitis	Kiyonori Kobayashi	588
Duodenal lesions in Crohn's disease	Minoru Matsuura	590
Small intestinal lesions in Crohn's disease	Kaoru Yokoyama et al.	592
Small intestinal cancer in Crohn's disease	Motoi Uchino et al.	594
Intestinal Behçet's disease and so-called simple ulcer syndrome	Noriyuki Horiki et al.	596
Small intestinal lesions in myelodysplastic syndrome	Kazumasa Kawashima et al.	598
Chronic enteropathy associated with <i>SLCO2A1</i> gene (CEAS)	Shunichi Yanai et al.	600
Mediterranean fever (<i>MEFV</i>) gene-associated with enterocolitis	Kohei Wagatsuma et al.	602
Duodenal lesions in IgA vasculitis (Henoch-Schoenlein Purpura)	Shunichiro Ozawa et al.	604
Small intestinal lesions in antineutrophil cytoplasmic antibody (ANCA)-associated vasculitis	Keisuke Kawasaki et al.	606
Small intestinal lesions in systemic lupus erythematosus (SLE)	Ichiro Hirata et al.	608
Small intestinal lesions in polyarteritis nodosa (PN)	Takeshi Ueda et al.	610
Small intestinal lesions in systemic sclerosis (SSc)	Ichiro Hirata	612
AA amyloidosis	Yasutaka Morimoto et al.	614
AL amyloidosis	Mariko Hamada et al.	616
Eosinophilic enteritis	Yu Sasaki et al.	618
Celiac disease	Takashi Murakami et al.	620
Intestinal lymphangiectasia	Ayako Yamashita et al.	622

Ischemic enteritis	<i>Kiyonori Kobayashi</i>	624
C. Mucosal injury due to therapeutic intervention		
Non-steroidal anti-inflammatory drug (NSAID)-induced enteropathy	<i>Shoko Miyahara et al.</i>	626
Low dose aspirin (LDA) -induced enteropathy	<i>Mitsuru Kaise et al.</i>	628
Olmesartan-induced sprue-like enteropathy	<i>Masao Yoshioka et al.</i>	630
Enteritis induced by chemotherapy including molecular targeted drug	<i>Tsunaki Sawada et al.</i>	632
Immune checkpoint inhibitor (ICI) -induced enteritis	<i>Kensuke Sakurai et al.</i>	634
Intestinal graft-versus-host disease (GVHD)	<i>Yoshihiro Yokoyama et al.</i>	636
Radiation enteritis	<i>Naohiko Akimoto et al.</i>	638
Duodenal mucosal injury due to hepatic arterial infusion chemotherapy (HAIC)	<i>Hiroshi Kashida et al.</i>	640
Blind loop syndrome	<i>Shigeki Bamba et al.</i>	642
III. Others		
A. Vascular lesions		
Aortoduodenal fistula	<i>Takuma Kobayashi et al.</i>	644
Duodenal and small intestinal varices	<i>Mitsushige Sugimoto et al.</i>	646
Vascular lesions of the small intestine	<i>Naoki Ohmiya</i>	649
Multiple small intestinal hemangiomas	<i>Tatsuya Kawamura et al.</i>	652
Blue rubber bleb nevus syndrome	<i>Sakae Mikami</i>	654
B. Diverticulum and congenital anomaly		
Choledochoceles	<i>Takahisa Ogawa</i>	656
Periampullary diverticulum (PAD)	<i>Takahisa Ogawa</i>	658
Intraluminal duodenal diverticulum (IDD)	<i>Noboru Ideno et al.</i>	660
Duodenal web	<i>Taisuke Takagi et al.</i>	662
Duplications of the duodenum and small intestine	<i>Hirohisa Takeuchi et al.</i>	664
Diverticulum of the small intestine	<i>Hisatomo Ikehara et al.</i>	666
Meckel's diverticulum	<i>Noriyuki Ogata et al.</i>	668
C. Miscellaneous		
Inverted diverticulum	<i>Yosho Fukita et al.</i>	670
Biliary-duodenal fistula	<i>Hiroo Imazu et al.</i>	672
Small intestinal endometriosis	<i>Hiroyuki Imaeda et al.</i>	674
Enteric muco-submucosal elongated polyp	<i>Naohiro Nakamura et al.</i>	676
Foreign body in the small intestine (denture)	<i>Takuto Hida et al.</i>	678
