

ENDOSCOPIA DIGESTIVA

Volume 36, Number 9, September 2024

CONTENTS

Special Issue

Biliary Cannulation: From the Basics to Advanced Techniques for Difficult Cases

Introductory remarks	<i>Shomei Ryozaawa</i>	1238
Various techniques and algorithms for biliary cannulation	<i>Ichiro Yasuda et al.</i>	1240
Devices used for selective biliary cannulation	<i>Yasuhito Kunogi et al.</i>	1246
I. Conventional methods		
Strategies for biliary cannulation based on the morphology of the duodenal papilla	<i>Mamoru Takenaka et al.</i>	1252
Biliary access: standard technique (wire-loaded method)	<i>Eisuke Iwasaki</i>	1265
The basics of wire-guided cannulation	<i>Hironari Kato et al.</i>	1274
II. Techniques in difficult cases		
Double-guidewire method of biliary cannulation	<i>Hideyuki Shiomi et al.</i>	1279
Precut sphincterotomy using a needle knife	<i>Akio Katanuma et al.</i>	1287
Pancreatic sphincter precutting using a sphincterotome	<i>Hiroyuki Kojima et al.</i>	1291
EUS-rendezvous technique in biliary cannulation	<i>Takuji Iwashita et al.</i>	1296
Rendezvous techniques in PTBD and PTGBD	<i>Yousuke Nakai et al.</i>	1300
III. Approaches in cases with anatomical anomaly or altered anatomy		
Biliary cannulation in cases with periampullary diverticula or intradiverticular papilla	<i>Ryohei Kumano et al.</i>	1304
Biliary cannulation in cases after Billroth I reconstruction	<i>Shigeyuki Suenaga et al.</i>	1309
Biliary cannulation using a single-balloon endoscope	<i>Yuki Tanisaka et al.</i>	1314
Biliary cannulation using a double-balloon endoscope in patients after Roux-en-Y reconstruction	<i>Hirofumi Kogure et al.</i>	1319
【Column】 What if a balloon endoscope is not available	<i>Kazunari Nakahara et al.</i>	1324
IV. How should we handle such cases?		
Biliary cannulation before or after endoscopic papillectomy	<i>Yoshihide Kanno et al.</i>	1328
Biliary cannulation in cases with impacted stone(s)	<i>Shinpei Doi et al.</i>	1335

Series Efficient Use of Big Data and Information and Communications Technology (ICT) in Endoscopy

Experience with clinical research using JED:

current status of colonoscopy practice from the perspective of big data	<i>Yutaka Saito et al.</i>	1340
