

ENDOSCOPIA DIGESTIVA

Volume 36, Supplement, 2024

CONTENTS

Special Issue Improving Endoscopy Skills

I. Endoscopy in General

How to choose a sedative from the list	<i>Hisatomo IKEHARA et al.</i>	10
Antithrombotic agents: Basic drug information and patient care	<i>Yousuke NAKAI et al.</i>	15
Good handling and useful clinical information for the pathological diagnosis of gastrointestinal diseases	<i>Satoshi NIMURA et al.</i>	19
Pathological diagnosis is influenced by how the specimen is dealt with and how the clinical information is given: Pancreatobiliary diseases	<i>Satoru YASUKAWA</i>	25
Ergonomics in endoscopy	<i>Ippei MATSUZAKI et al.</i>	30

II. Oral Cavity, Pharynx, and Esophagus

How to observe the oral cavity and the pharynx to detect lesions: Differences between trans-oral and trans-nasal scopes	<i>Kenro KAWADA et al.</i>	36
How to utilize image enhancement not overlook esophageal cancer, and how to take pictures which contribute to the diagnosis	<i>Miwako ARIMA et al.</i>	41
How to master EUS in the esophagus	<i>Noriko MATSUURA et al.</i>	45
Diagnosis of GERD	<i>Shiko KURIBAYASHI et al.</i>	53
Diagnosis of esophageal motility disorders: Focus on endoscopic findings	<i>Noriyuki KAWAMI et al.</i>	60
What should we do when we are not confident about the depth of a superficial esophageal cancer?	<i>Shigetaka YOSHINAGA et al.</i>	65
Endoscopic observation that does not overlook esophagogastric junction cancer	<i>Manabu TAKEUCHI et al.</i>	69
Don't overlook signs of eosinophilic esophagitis: Detection and differential diagnosis	<i>Tomoyuki KOIKE et al.</i>	75
Treatment strategies for esophageal varices depending on the pathophysiological situation	<i>Tsunetaka KATO et al.</i>	80
Striving toward safe and reliable esophageal ESD	<i>Yuki MAEDA et al.</i>	86
Tips for preventing stenosis in total or subtotal circumferential esophageal ESD	<i>Tomoya UEDA et al.</i>	92
Tips for preventing and releasing esophageal stenosis after ESD	<i>Kotaro SHIBAGAKI et al.</i>	97
Appropriate surveillance methods after ESD for superficial esophageal cancer	<i>Yoichiro ONO et al.</i>	103

III. Stomach and Duodenum

How to detect gastric cancers after <i>Helicobacter pylori</i> eradication	<i>Masaaki KOBAYASHI et al.</i>	110
Do not underestimate the importance of endoscopic observation of the <i>Helicobacter pylori</i> —naïve stomach	<i>Mitsuru KAISE et al.</i>	115

How to easily apply a magnifying endoscopy simple diagnostic algorithm for early gastric cancer (MESDA-G)	<i>Hisashi DOYAMA et al.</i>	122
How to master EUS in the stomach and duodenum	<i>Yorinari OCHIAI et al.</i>	129
How to observe the duodenum without overlooking superficial non-ampullar duodenal epithelial tumors	<i>Takanori MATSUI et al.</i>	133
What should we do when the bleeding source cannot be identified due to massive blood clots?	<i>Satoshi TANABE et al.</i>	138
Indications for hemostasis in non-variceal upper gastrointestinal bleeding and selection of hemostasis methods	<i>Shinya KODASHIMA</i>	143
Let's aim for safe and secure gastric ESD	<i>Seiichiro ABE et al.</i>	148
How to manage intraprocedural bleeding during gastric ESD	<i>Yoshie NOMOTO et al.</i>	154
How to use traction devices during gastric ESD	<i>Mamoru ITO et al.</i>	158
Prevention and multidisciplinary management of delayed bleeding after gastric ESD	<i>Waku HATTA et al.</i>	162
Strategies for endoscopic resection of duodenal neoplasm	<i>Osamu DOHI et al.</i>	167
Strategy for safe and secure endoscopic removal of foreign bodies in the upper gastrointestinal tract	<i>Taiji AKAMATSU et al.</i>	172
IV. Small Intestine		
Mastering balloon-assisted endoscope insertion	<i>Naoki HOSOE</i>	180
Mastering the special maneuvers that can be performed only with a double-balloon endoscope	<i>Tomonori YANO</i>	185
How to exactly locate small intestinal hemorrhaging	<i>Naoki OHMIYA</i>	189
Basics for dilatation of small intestinal strictures and ways to overcome difficulties	<i>Kunihiko OGURO et al.</i>	194
Strategies for multiple small intestinal polyps in familial adenomatous polyposis syndrome	<i>Yoji TAKEUCHI et al.</i>	199
Strategies for resecting multiple small intestinal polyps in Peutz-Jeghes syndrome	<i>Kohei SHIGETA et al.</i>	204
V. Large Intestine		
How to improve bowel cleansing for colonoscopy	<i>Hiroyuki TAKAMARU et al.</i>	210
Basics and tips for straightening and shortening colonoscope intubation	<i>Masashi MISAWA et al.</i>	213
Colonoscopy intubation for patients with dolichocolon, including those with severe obesity	<i>Yasuhiro OONO et al.</i>	217
How to master EUS in the colorectum	<i>Kiyonori KOBAYASHI</i>	222
How to utilize various image enhancement during screening colonoscopy	<i>Naohisa YOSHIDA et al.</i>	227
Perioperative precautions for CFP, CSP, and HSP	<i>Hironori AOKI et al.</i>	235
Perioperative precautions for EMR	<i>Kinichi HOTTA et al.</i>	241
Perioperative precautions for ESD	<i>Tatsuma NOMURA et al.</i>	247
How to perform underwater EMR	<i>Takuji KAWAMURA et al.</i>	253

Pocket creation method is evolving; don't be held up by dogma	Masahiro OKADA <i>et al.</i>	257
How to perform water pressure method for colorectal ESD	Teppe AKIMOTO <i>et al.</i>	261
Optimal selection of traction devices for colorectal ESD	Toshiki FUTAKUCHI <i>et al.</i>	265
How to close a mucosal defect after colorectal endoscopic resection	Noriko NISHIYAMA <i>et al.</i>	271
Perioperative precautions for endoscopic/surgical treatment of sigmoid volvulus	Hideaki MIZUNO <i>et al.</i>	277
Diagnostic and therapeutic strategies to prevent rebleeding from colonic diverticular disease	Takaaki KISHINO <i>et al.</i>	283
VI. Biliary Tree and Pancreas		
Duodenoscope intubation: Basics and techniques for difficult cases	Masataka SASAKI <i>et al.</i>	290
Ultrasonic endoscope intubation: Basics and techniques for difficult cases	Atsushi KANNO <i>et al.</i>	295
How to perform ERCP using balloon-assisted endoscope in surgically altered anatomy	Yuki TANISAKA <i>et al.</i>	301
How to set up an endoscopic ultrasonic apparatus to obtain high-quality images	Eizaburo OHNO <i>et al.</i>	305
Pointers for pancreatobiliary EUS using a radial-arrayed transducer	Keiji HANADA <i>et al.</i>	311
Pointers for pancreatobiliary EUS using a convex (curved-linear) —arrayed transducer	Fumi SAKUMA <i>et al.</i>	317
EUS-guided tissue acquisition: Basic, intermediate and advanced techniques for difficult cases	Shin YAGI <i>et al.</i>	324
Biliary cannulation: Basics and techniques for difficult cases	Mamoru TAKENAKA <i>et al.</i>	329
Strategies for passing through a bile duct stricture	Hideyuki SHIOMI <i>et al.</i>	337
How to master peroral cholangioscopy	Nao FUJIMORI <i>et al.</i>	343
Therapeutic strategy for common bile duct stones	Ichiro YASUDA <i>et al.</i>	348
Endoscopic approach for obstructive jaundice	Muneo IKEMURA <i>et al.</i>	353
Strategy and practice of using transpapillary pancreatic stents	Naoki OKANO <i>et al.</i>	360
Strategy for endoscopic transpapillary gallbladder drainage	Kazunari NAKAHARA <i>et al.</i>	365
EUS-guided pancreatic cyst drainage:		
Basics and techniques for difficult cases	Tomohisa IWAI <i>et al.</i>	371
Drainage and necrosectomy for walled-off necrosis	Tomotaka SAITO <i>et al.</i>	375
EUS-HGS: Basics and techniques for difficult cases	Hirohito MINAMI <i>et al.</i>	381
EUS-PD: Basics and techniques for difficult cases	Kazuki HAMA <i>et al.</i>	387
