How to Fully Utilize Peroral Cholangioscopy and Pancreatocopy!

Introductory remarks	<i>Toshio Tsuyuguchi</i>	882
The history of peroral cholangioscopy and pancreatocopy	<i>Hirohito Minami et al.</i>	883
Indications for peroral cholangioscopy and pancreatocopy	<i>Akio Katanuma</i>	891
Currently available peroral cholangioscopies and their features	<i>Kazumasa Nagai et al.</i>	897
Adverse events and their management during peroral cholangioscopy and pancreatocopy	<i>Hironari Kato et al.</i>	904
【Note】 Pathological diagnosis of tissue obtained with peroral cholangioscopy and pancreatocopy	<i>Kenichi Hirabayashi</i>	911
I . Peroral cholangioscopy : POCS		
Differential diagnosis of bile duct lesions with peroral cholangioscopy	<i>Takuya Ishikawa et al.</i>	913
Assessment of the intraepithelial spread of cholangiocarcinoma with the use of peroral cholangioscopy	<i>Hiroshi Kawakami et al.</i>	918
Treatment of bile duct stones (choledocholithiasis) with peroral cholangioscopy	<i>Naoki Okano et al.</i>	924
Advanced techniques with the use of peroral cholangioscopy	<i>Tadahisa Inoue et al.</i>	929
Tips for direct POCS in patients with surgically altered gastrointestinal anatomy	<i>Kazuyuki Matsumoto et al.</i>	934
Cholangioscopy through the route of EUS-guided biliary drainage	<i>Takeshi Ogura et al.</i>	939
Current status and future perspectives of cholangioscopy in the diagnosis and treatment of gallbladder diseases	<i>Noriyuki Hirakawa et al.</i>	945
Image enhancement in peroral cholangioscopy	<i>Mamoru Takenaka et al.</i>	948
Confocal laser endomicroscopy under direct visualization using peroral cholangioscopy	<i>Yuki Tanisaka et al.</i>	952
II . Peroral pancreatocopy : POPS		
Techniques of peroral pancreatocopy and its usefulness for the diagnosis of IPMN	<i>Toshiki Entani et al.</i>	956
Treatment of pancreatic duct stones with peroral pancreatocopy	<i>Keisuke Iwata et al.</i>	959
Pancreatocopy through the route of EUS-guided pancreatic duct drainage	<i>Toshifumi Kin et al.</i>	963
【Note】 Image enhancement in peroral pancreatocopy	<i>Michihiro Yoshida et al.</i>	968
