

ENDOSCOPIA DIGESTIVA

Volume 37, Number 8, August 2025

CONTENTS

Special Issue

All About Endoscopic Wound Closure: Presentation with Fascinating Footage

Introductory remarks

The rising significance of endoscopic wound closure techniques	<i>Naohisa Yahagi</i>	982
A variety of endoscopic wound closure techniques and their historical transition	<i>Osamu Goto et al.</i>	984
Significance of wound closure after endoscopic resection for gastrointestinal lesions	<i>Yasushi Yamasaki</i>	992
Basic knowledge of gastrointestinal suturing and anastomosis	<i>Nobutsugu Abe et al.</i>	998

I. Endoscopic wound closure with clips

Endoscopic wound closure with conventional clips	<i>Tsuyoshi Ishii et al.</i>	1008
【Note】 Underwater clip closure method	<i>Tsugitaka Ishida et al.</i>	1014
【Note】 Double-layered suturing technique with the MANTIS™ Closure Device	<i>Eri Nishikawa et al.</i>	1017
【Note】 Usefulness of Dual Action Tissue (DAT) clips for endoscopic wound closure	<i>Eiichiro Yokoyama et al.</i>	1021
【Note】 Endoscopic closure after traction and straightening (E-CATS)	<i>Hirohisa Takeuchi et al.</i>	1024
Purse-string suture using an endoloop	<i>Satoki Shichijo et al.</i>	1027
Defect closure after gastric EFTR: Usefulness of OTSC®	<i>Kingo Hirasawa et al.</i>	1031
【Note】 Endoscopic treatment for anastomotic leakage and fistula after colorectal surgery	<i>Nao Takeuchi et al.</i>	1036
Closure of the mucosal defect after duodenal ESD: String clip suturing method/modified double-layered suturing	<i>Teppei Masunaga et al.</i>	1039
【Note】 Endoscopic defect closure using nylon thread, clips, and rubber bands of Endoscopic Variceal Ligation (EVL) devices: Endoscopic ligation with O-ring closure (E-LOC)	<i>Noriko Nishiyama et al.</i>	1044
Reopenable-clip over the line method (ROLM)	<i>Tatsuma Nomura et al.</i>	1049
A novel endoscopic closure technique using “loop 9” and “loop 11”	<i>Ippei Tanaka et al.</i>	1053
【Topics】 Strength of clips for endoscopic closure and the histological healing of the wound	<i>Takanori Matsui et al.</i>	1059
【Note】 Wound healing after closure with polyglycolic acid sheets and fibrin glue	<i>Kengo Takimoto et al.</i>	1065
【Topics】 Wound dressing and reinforcement with temperature-dependent collagen solution	<i>Toshio Uraoka et al.</i>	1070

II. Endoscopic wound closure with dedicated suturing devices

Endoscopic suturing technique using Zeosuture M® and its clinical application	<i>Hirohito Mori et al.</i>	1073
Endoscopic suturing with OverStitch Sx™	<i>Mamoru Ito et al.</i>	1080
Endoscopic hand-suturing using SutuArt	<i>Kazutoshi Higuchi et al.</i>	1085
Endoscopic ligation technique (ELT)	<i>Hironari Shiwaku et al.</i>	1090
