How to Pick Suitable Devices for Gastrointestinal Endoscopy

Introductory remarks	<i>Hironori Yamamoto</i>	1103
I . Devices for hemostasis		
Esophagogastric variceal bleeding	<i>Tsunetaka Kato et al.</i>	1104
Non-variceal upper gastrointestinal bleeding	<i>Ryo Nakamura et al.</i>	1111
Small intestinal bleeding	<i>Tomoko Tamaru et al.</i>	1116
Lower gastrointestinal bleeding;		
Focus on endoscopic band ligation for colonic diverticular hemorrhage	<i>Takashi Ikeya</i>	1120
II . Devices for EMR/polypectomy		
EMR with cap (EMR-C) in the esophagus	<i>Ippei Tanaka et al.</i>	1125
EMR in the stomach and duodenum	<i>Shoma Murata et al.</i>	1128
Cold forceps/snare polypectomy in the colorectum	<i>Tetsuhiko Hirai et al.</i>	1131
EMR/hot snare polypectomy in the colorectum	<i>Taishi Okumura et al.</i>	1135
III . Devices for ESD		
Knives for ESD: Overview and device selection	<i>Tadateru Maehata et al.</i>	1139
Insulated-tip knife (IT Knife)	<i>Seiichiro Abe et al.</i>	1143
Non-insulated-tip knife	<i>Shinya Hoki et al.</i>	1147
Scissor-type knife	<i>Osamu Dohi et al.</i>	1151
【Note】 Hybrid ESD	<i>Shun Ito et al.</i>	1156
【Note】 Endoscopic laryngopharyngeal surgery	<i>Kenro Kawada et al.</i>	1160
Selection and application of distal attachments: Focus on the ST Hood™ family	<i>Takaaki Morikawa et al.</i>	1163
Traction devices	<i>Shunsuke Kamba et al.</i>	1167
【Note】 A single shot of solution determines the course of ESD:		
The best choice of injection needle	<i>Tomoya Kimura et al.</i>	1173
【Note】 Retrieval devices for resected specimens	<i>Yoji Takeuchi</i>	1176
IV . Other devices for gastrointestinal endoscopic procedures		
Endoscopic dilation for gastrointestinal stricture	<i>Sota Nakagami et al.</i>	1182
Stenting for the digestive tract	<i>Yoshihisa Saida et al.</i>	1187
Endoscopic removal of foreign bodies	<i>Hiroyuki Imaeda et al.</i>	1193
Closure of resection wound, fistula, and perforation	<i>Yasuyuki Kagawa et al.</i>	1198

TOKYO IGAKUSHA Ltd. 5-16 Kohinata 4-chome, Bunkyo-ku, Tokyo 112-0006 Japan
