

ENDOSCOPIA DIGESTIVA

Volume 37, Supplement, 2025

CONTENTS

Special Issue

All about Gastrointestinal Infections 2025

Introductory remarks	Mitsuru KAISE	9
【General Topics】		
Fundamentals of pathogen detection in gastrointestinal infection	Hiroshige MIKAMO	12
Fundamentals of endoscopic differential diagnosis of intestinal infectious diseases	Kiyotaka OKAWA et al.	18
Pathological diagnosis of gastrointestinal infectious disease	Hideki MIYAZAKI et al.	27
Antimicrobial stewardship: JAID/JSC Clinical Practice Guidelines for Infectious Disease Treatment 2023; <i>Clostridioides difficile</i> Infection (CDI) Guidelines 2022	Nobuaki MORI	35
Infection control in gastrointestinal endoscopy	Taiji AKAMATSU et al.	42
【Atlas of Clinical Cases】		
I . Oral cavity and esophagus		
(A) Bacterial infection		
Esophageal tuberculosis	Eriko KOIZUMI et al.	50
(B) Mucositis		
Oral candidiasis (Oral thrush)	Yoichiro ONO et al.	53
Esophageal candidiasis	Shiko KURIBAYASHI et al.	56
(C) Parasitic infection		
Anisakiasis in the upper esophagus	Eiji KAMBA	61
(D) Viral infection		
Herpes simplex virus esophagitis	Tomoyuki KOIKE et al.	65
Cytomegalovirus esophagitis	Tomoyuki KOIKE et al.	67
Pharyngeal cancer associated with human papilloma virus (HPV)	Kenro KAWADA et al.	69
II . Stomach		
(A) Bacterial infection		
Active gastritis associated with <i>Helicobacter pylori</i>	Nobue UEKI et al.	74
Mucosa-associated lymphoid tissue (MALT) lymphoma associated with <i>Helicobacter pylori</i>	Takashi KAWAI et al.	77
Acute gastric mucosal lesion (AGML) caused by acute <i>Helicobacter pylori</i> infection	Toru UEKI et al.	80
Gastritis associated with non- <i>Helicobacter pylori</i> <i>Helicobacter</i> (NHPH)	Kengo TOKUNAGA et al.	83

Mucosa-associated lymphoid tissue (MALT) lymphoma associated with non- <i>Helicobacter pylori</i> <i>Helicobacter</i> (NHPH)	Masaya SANO et al.	86
Phlegmonous gastritis	Takehiro NINOMIYA et al.	91
Gastric syphilis	Akiko OHNO et al.	94
Gastric tuberculosis	Shota YAMAMOTO et al.	98
《Note》 Sticky adherent dense mucus	Takashi KAWAI et al.	101
(B) Mucositis		
Gastric candidiasis	Soichiro YAMAMOTO et al.	103
(C) Parasitic infection		
Anisakiasis with typical presentation	Ryo ITO et al.	106
Anisakiasis presenting as a vanishing tumor	Momoko TSUDA et al.	109
(D) Viral infection		
Cytomegalovirus gastritis	Jun NAKAMURA et al.	112
Epstein-Barr virus-associated gastritis	Yoshiro YAMAMOTO et al.	116
Epstein-Barr virus-associated gastric adenocarcinoma	Yosuke TSUJI et al.	120
Gastric Kaposi's sarcoma associated with human herpesvirus 8 (HHV8) infection	Eriko NOMA et al.	122
III. Duodenum and small intestine		
(A) Bacterial infection		
Whipple disease (<i>Tropheryma whipplei</i> infection)	Katsuyoshi ANDO et al.	128
Duodenoenteritis associated with nontuberculous mycobacteria infection	Atsushi IRAHA et al.	133
Small intestinal tuberculosis	Yoko YOKOYAMA et al.	136
Small intestinal bacterial overgrowth (SIBO)	Akiyoshi TSUBOI et al.	140
《Note》 Alteration of gastrointestinal flora due to acid secretion inhibitors (PPI/PCAB)	Eri IWATA et al.	144
(B) Parasitic infection		
Ascariasis	Shunji FUJIMORI	147
Diphyllobothriasis: Focus on capsule endoscopy	Hiroto HIRAGA et al.	150
Hookworm infection	Masanao NAKAMURA et al.	154
Giardiasis	Sakuma TAKAHASHI et al.	156
Anisakiasis of the small intestine	Hirofumi KIYOKAWA et al.	159
Strongyloidiasis	Tetsuya OHIRA et al.	162
Cystoisosporiasis	Masashi OHNO et al.	165
Corynosomiasis	Tomoki FUJITA et al.	169
(C) Viral infection		
Cytomegalovirus enteritis	Yuka ITO et al.	173
IV. Ileocecal region, large intestine, and anus		
(A) Bacterial infection		
1) Foodborne illness/Acute infection		
<i>Campylobacter</i> enterocolitis	Toshihiro INOKUCHI et al.	178
<i>Salmonella</i> enterocolitis	Shojiro YAMAMOTO et al.	182

Typhoid/Paratyphoid fever (Enteric fever)	<i>Satoru KITAMURA et al.</i>	186
Shigellosis	<i>Kiyoshi OGISO et al.</i>	189
Enterohemorrhagic <i>Escherichia coli</i> colitis	<i>Kaoru YOKOYAMA et al.</i>	193
<i>Yersinia enterocolitis</i>	<i>Shiro NAKAMURA et al.</i>	196
<i>Aeromonas enterocolitis</i>	<i>Sakuma TAKAHASHI et al.</i>	200
《Note》 Post infectious irritable bowel syndrome (IBS) —including post COVID-19 IBS—	<i>Tatsuhiko MASAOKA</i>	203
2) Microbial substitution disease		
<i>Clostridioides difficile</i> infection	<i>Yuma HOTTA et al.</i>	205
Methicillin-resistant staphylococcus aureus (MRSA) enterocolitis	<i>Kiyotaka OKAWA et al.</i>	208
Antibiotic-associated hemorrhagic colitis associated with <i>Klebsiella oxytoca</i>	<i>Tomoyuki TSUJIKAWA et al.</i>	213
3) Chronic infection		
Intestinal tuberculosis	<i>Yuichi MATSUNO et al.</i>	216
Nontuberculous mycobacterial infection of the large intestine	<i>Akari TOMITA et al.</i>	220
Intestinal spirochetosis	<i>Tsubomi CHO et al.</i>	223
Syphilitic proctitis	<i>Jiro WATARI et al.</i>	226
<i>Chlamydia trachomatis</i> proctitis	<i>Seiji SHIMIZU et al.</i>	230
(B) Parasitic infection		
Amebic colitis	<i>Kazuya MIYAGUCHI et al.</i>	234
Cryptosporidiosis	<i>Taku MORITA et al.</i>	237
Schistosomiasis japonica	<i>Satoshi WAKAO et al.</i>	241
Colorectal anisakiasis	<i>Osamu TOYOSHIMA et al.</i>	244
Trichuriasis	<i>Yuto ISHIZAKI et al.</i>	247
(C) Viral infection		
Cytomegalovirus colitis in patients with ulcerative colitis	<i>Yudai HASEGAWA et al.</i>	251
Cytomegalovirus colitis in immunocompetent patients	<i>Yoshikazu TSUZUKI et al.</i>	255
Condyloma acuminatum associated with human papillomavirus (HPV) infection	<i>Masao KOMA et al.</i>	259
Squamous intraepithelial lesion in the anus associated with human papillomavirus (HPV) infection	<i>Sachiko SHIMIZU et al.</i>	263
Chronic active Epstein-Barr virus disease	<i>Yu SASAKI et al.</i>	267
Colorectal Kaposi's sarcoma associated with human herpesvirus 8 (HHV8) infection	<i>Ryoko TATSUNO et al.</i>	272
