

A stylized anatomical diagram of the human large intestine (colon) centered on a white circle. The diagram is composed of several concentric, semi-transparent rings in shades of teal and blue. A vertical bar passes through the center, with a light teal segment at the top and a darker blue segment at the bottom. The large intestine is depicted as a continuous loop, with the cecum on the right, the ascending colon on the left, the transverse colon at the top, and the sigmoid colon at the bottom. The diagram is set against a solid teal background.
