

ENDOSCOPIA DIGESTIVA

Volume 38, Number 9, September 2026

CONTENTS

Special Issue

Private School for Endoscopic Diagnosis of Colorectal Neoplasm: Hone Your Skills One Step Forward

Introductory remarks: Endoscopic diagnosis of colorectal neoplasm;

Present status and future perspectives

Hiroshi Kashida 1014

Diagnosis of early colorectal cancer using conventional colonoscopy

Makoto Sanomura et al. 1017

Diagnosis with magnifying colonoscopy: JNET classification

Mineo Iwatate et al. 1028

Pit pattern diagnosis for colorectal lesion

Masashi Misawa et al. 1034

《Note》 Clinical utility and future perspectives of crystal violet staining
in magnifying colonoscopy

Takahiro Fujii et al. 1041

Endoscopic ultrasonography for colorectal tumors:

Optimizing therapeutic indications based on prediction of vertical margin

Yuki Kamigaichi et al. 1045

Polypoid and non-polypoid growth type of early colorectal cancer

Tadakazu Shimoda et al. 1052

A diminutive lesion: To resect or to leave?

Osamu Toyoshima et al. 1063

A small lesion: Resect with a cold snare or a hot snare?

Takuji Kawamura et al. 1067

A laterally spreading tumor (LST) which may not be a definite indication for ESD

Takashi Kanesaka et al. 1072

A laterally spreading tumor (an LST) requiring ESD

due to probable submucosal invasion

Hirohito Tanaka et al. 1075

《Note》 International consensus on the management of large (≥ 20 mm)

colorectal laterally spreading tumors: World Endoscopy Organization Delphi study

Yutaka Saito 1078

A serrated lesion: To remove or to leave?

Yorihito Hayashi et al. 1080

Serrated lesions with challenging treatment decisions

Takashi Murakami et al. 1085

《Note》 Characteristics of superficially serrated adenoma (SuSA)

Yasuhiko Mizuguchi et al. 1092

IIc lesions: tips for detection and treatment strategies

Naoto Tamai et al. 1095

Depressed-type lesions requiring surgical management

Katsuro Ichimasa et al. 1099

A pedunculated lesion requiring surgical management

Yusuke Nishikawa et al. 1103

Deeply invasive submucosal (cT1b) cancer in the lower rectum:

A candidate for Per-Anal Endoscopic Myectomy (PAEM)

Ryosuke Ishida et al. 1107

Subepithelial lesions (SEL): How should they be treated?

Sayo Ito 1112

Ulcerative colitis (UC) -associated neoplasm: How should it be treated?

Shoma Murata et al. 1116

TOKYO IGAKUSHA Ltd. 5-16 Kohinata 4-chome, Bunkyo-ku, Tokyo 112-0006 Japan
