

索引

(皮膚病診療 Vol.40, Suppl.)

a

aggregated globules 11
arborizing vessels 35, 38, 44, 63, 66, 109
asymmetric pigmented follicular openings
..... 12, 13, 25, 32
atypical hairpin vessels 12
atypical pigment network 12, 13, 30
atypical pseudonetwork 25, 32
avascular areas 89

b

blue-gray dots 12
blue-gray globules 35, 36
blue-white veil 12, 22, 30, 43, 64
blue-whitish structures 12, 13
brain-like appearance 49

c

cap-like spaces 19
central white patch 110
clouds vessels 109
cobblestone pattern 17
comedo-like openings 17, 47, 48, 64
comma vessels 12, 13
comma-like vessels 17
corkscrew/tortuous vessels 12
crista dotted pattern 16
crown vessels 68

d

delicate pigment network 110
dots 94
dots/globules 16, 18, 19, 22
dotted vessels 12

f

fibrillar pattern 16
fine arborizing vessels 41
fingerprint-like structures 47
fissures and ridges 47
frog egg-like appearance 61

g

globular pattern 18
globules 17, 18, 29, 61
gray delta structures 73

h

hairpin-like vessels 42
homogeneous blue pigmentation 11, 20

i

irregular dots/globules 12
irregular pigmentation 12
irregular streaks 12

j

- jelly sign 46
- jet with contrail 73

k

- Kamino body 19

l

- lacuna, lacunae 51, 53, 61
- large blue-gray ovoid nests 33, 38, 42, 45, 64
- lattice-like pattern 16
- leaf-like areas 33
- leaf-like structures 44
- linear and branched vessels 106
- linear-irregular vessels 12

m

- micro-Hutchinson's sign 83
- milia-like cysts 42, 47, 48
- milky red areas 12
- moth-eaten sign/border 46
- multiple blue-gray globules 33, 39, 44, 45
- multiple milia-like cysts 65

n

- negative pigment network 19

o

- open pores with plugs 98

p

- parallel furrow pattern 16
- parallel pattern 11
- parallel ridge pattern 12, 13, 22, 23, 28, 29
- pebbles on the ridges 55
- peripheral rim of globules 18
- pigment network 11, 17, 30, 31, 67, 95, 109
- polymorphous vessels 109
- pseudonetwork 11, 13, 17, 37
- pseudopigment network 109

r

- red pseudonetwork 107
- red-black homogeneous areas 91
- red-blue lacunae 52
- red-bluish homogeneous areas 50
- red-bluish to reddish black homogenous areas 50
- reddish homogeneous areas 54
- regular band 78
- regular fibrillar pattern 81
- regular lines 78, 79
- regular parallel ridge pattern 81
- reticular pattern 17
- rhomboidal structures 12, 13, 32

s

- setting sun appearance 106
- shiny white areas 38
- shiny yellow clods 92
- strawberry pattern 107
- streaks 11, 17

t		white collarette	54
triangular shape	82	white rail lines	54
typical pseudonetwork	46	whitish areas	67
v		whitish peripheral rim	98
vascular structures	12	whitish scar	12
w		whitish streaks	41
wake	73	whitish striae	93
white clods	96	y	
		yellow dots	96
