

INDEX TO KEY WORDS

(Vol. 8)

1-mm minigrafts 379

A

acne vulgaris 412
 acquired reactive perforating collagenosis
 (ARPC) 122
 actinic keratosis..... 240
 aged people 283
 aging..... 289
 aging hair loss 245
 allergy..... 11
 alopecia areata (AA) 214
 androgenetic alopecia..... 162, 245
 angiokeratoma..... 269
 angioma senile 269
 angiosarcoma 269
 animal model..... 100
 ankle-brachial index (ABI) 257
 anti-inflammation..... 11
 anti-KIT receptor antibody 157
 anti-OSMR β antibody 157
 artificial intelligence (AI) 328, 428, 467
 aryl hydrocarbon receptor (AhR) 17
 asteatotic dermatitis 251
 atopic dermatitis (AD) 1, 17, 43, 68,
 105, 165, 233, 310
 autologous cultured epidermis
 maintaining melanocytes..... 386
 avoidance of aggravating factor..... 43

B

barrier 289
 basal cell carcinoma (BCC) 75, 240, 428
 basophil..... 100, 144
 biologics 149, 165
 Bowen disease..... 240
 bullous pemphigoid..... 185

C

camouflage therapy 407
 cellulitis 283
 chronic idiopathic erythroderma (CIE) 233
 chronic limb-threatening ischemia (CLTI) 257
 chronic spontaneous urticaria..... 171
 chronic stress 24
 chronic urticaria..... 55
 circadian clock 6
 classification 315
 classification criteria..... 207
 clinical 365
 clinical evaluation 328
 clinical trial..... 32, 165, 179, 192, 198, 214
 clinical use..... 315
 cohort study 32
 collagen type 17 α 1 (COL17A1) 24
 communication gap 139
 complication 79
 compression therapy 263
 confetti vitiligo..... 340
 confocal microscopy..... 433
 corticosteroids 374
 crowdfunding 226
 cultured melanocyte transplantation 379
 cutaneous lupus erythematosus (CLE) 198
 CXCR4..... 61
 cylindroma 75
 cytokines 109, 134

D

daily management 43
 damaged hair..... 245
 deep dissecting hematoma..... 277
 deep learning 428
 dermatitis in flux 39
 dermatomyositis (DM) 207

dermis	277
dermoscopy	428
diagnosis	315
diagnostic device	433
diagnostic kit	226
differential diagnosis	79
disease activity	328
dupilumab	116, 149
DX	467
dysbiosis.....	68
dystrophic epidermolysis bullosa.....	185

E

eczematous dermatitis	233
elderly	233, 304
endovascular ablation.....	263
environmental factors.....	1
epidemiology	315
epigenetics	1, 289
eubiosis	68
excimer laser	356, 417
excimer light	347, 417

F

F-VASI	401
female pattern hair loss.....	245
fibrosis.....	450
flounder roe.....	49
food allergy.....	32
fractional carbon dioxide laser	390
fractional laser	450

G

galactose- α -1,3-galactose (α -Gal)	49
glucocorticoids.....	61
Gram-negative bacillus.....	75
gray hair	245
guideline.....	214, 395
gut microbiome	68

H

hair follicle stem cell	24
herpes simplex virus (HSV)	61

herpes zoster.....	283
high fat diet	24
histopathology	85
history	395
home-based phototherapy	423
hyperhidrosis	412
hypertrophied nail.....	251

I

idiopathic inflammatory myopathy (IIM)	207
IgE.....	100
IgE-mediated chronic allergic inflammation (IgE-CAI)	100
immunity	322
infectious skin disease	283
inflammation.....	95
intense pulsed light (IPL)	446
intercellular interactions	289
interleukin-4 (IL-4)	134, 144, 149
interleukin-13 (IL-13)	134, 149
interleukin-31 (IL-31)	105, 134, 154
intermittent fasting.....	24
interstitial lung disease (ILD)	207
intraepidermal nerve fibers.....	109
itch	85, 91, 95, 304, 462
itch-scratch-nodule cycle.....	109

J

JAK inhibitor	157, 162, 214, 374, 401
JAK-STAT pathway.....	214

K

Kaposi's sarcoma	269
Kimura's disease	116
Koebner phenomenon.....	340

L

large language models (LLM)	467
large multimodal models (LMM)	467
LED	458
lichenified gluteal plaques of the elderly.....	251
light amplification by stimulated emission of radiation (laser)	446

light source	458
line-field confocal optical coherence tomography (LC-OCT)	433
lipid metabolite	11
long chain polyunsaturated fatty acid	11
lower extremity artery disease (LEAD)	257
low level laser therapy (LLLT)	446

M

μ-opioid receptor antagonist	157
malignant melanoma	310
Marie-Unna hereditary hypotrichosis (MUHH)	162
mathematical model	55
mechanism	365
melanocyte disappearance	322
melanoma	220, 428
microbiome	165
minigrafts and cultured epidermal autografts	379
minimal blister dose (MBD)	356
minimal erythema dose (MED)	356, 458
myotonic dystrophy (DM)	162

N

narrow band UVB (NBUBV)	347, 417, 423
negative pressure wound therapy (NPWT)	439
nemolizumab	154
nerve fibers	95
neuro-immune dysregulation	95
neuro-immune interaction	91
neurogenic itch	109
NK1 receptor antagonist	157
non-cultured epidermal cell grafting	379
non-invasive	433
non-pharmacological therapy	462
non-segmental and segmental vitiligo	322
novel therapeutic agents	179

O

occupational skin disorders	39
omega-3 fatty acid	11
opioids	109
oxidative stress	322

P

pathogenesis	198
pathology	322
pemphigoid nodularis	129
pemphigus	185
percutaneous sensitization	49
photoaging	296
phototherapy	335, 340, 347, 356, 423, 458
physical impact	139
physiology	6
plantar keratosis	251
plasmacytoid dendritic cell (pDC)	61
pressure ulcer	277
prevention	32
prolonged high-intensit exercise	61
prurigo	122
prurigo chronica multiformis	144
prurigo nodularis (PN)	85, 91, 95, 100, 105, 116, 122, 134, 139, 144, 149, 154
psoralen + UVA (PUVA)	417
psoriasis	1, 17, 68, 179
psoriasis vulgaris	310
psoriatic arthritis (PsA)	179

Q

Q-switched laser	390
quality of life (QOL)	139, 328

R

radio frequency (RF)	446
red meat allergy	49
reflectance confocal microscope (RCM)	433
ritilecitinib	401
rosacea	412
ruxolitinib	401

S

scar	450
sebaceous gland hyperplasia	251
senile erythroderma (SE)	233
senile lentigo	296
skin	6, 289

skin cancer	220
skin disease	6
skin eruption morphology	55
skin protection	39
skin regeneration	450
skin tear	277
small-molecule drugs	165
solar elastosis	296
squamous cell carcinoma	220, 240
standard erythema dose (SED)	453
stasis ulcer	263
Stevens-Johnson syndrome (SJS)	226
surgical treatment	335
surgical treatment for vitiligo	379
systemic corticosteroid therapy	340
systemic lupus erythematosus (SLE)	198
systemic sclerosis (SSc)	192
systemic treatment	335

T

T-VASI	401
tacrolimus	374
tapinarof	17
targeted phototherapy	423
targeted therapy	179
thermal grill illusion	462
tick bite	49
topical	374
topical treatment	335
toxic epidermal necrolysis (TEN)	226
transepidermal elimination	122
treatment	395
trichrome lesion	340

trigger	79
TRP channels	462
type 2 inflammation	91, 105, 116

U

ultrasound	446
ultraviolet	296
ultraviolet radiation (UV)	453
umbilical prurigo nodularis	122
underlying disease	79
UV Index (UVI)	453
UVA1	417
UVB	458
UVB-LED	347

V

varicose vein	263
venous lake	269
visible light	365
vitamin D	32
vitamin D ₃	374
vitiligo	315, 335, 347, 356, 365, 386, 395
Vitiligo Area Scoring Index (VASI)	328
vitiligo vulgaris	407

W

workplace health guidance	39
wound care management	439
wound healing devices	439

X

xerosis	304
